Student Forms

Reviewed 6/2019VG
Preface

Reviewed 6/2019

During orientation to the program, each student is shown the electronic posting location of their cohort’s Student Guidebook and of any addendums or changes made during the program. The guidebook serves as a guide for the student throughout the entire program.

This booklet is written to assist the student to adjust more readily to the Ohio Valley Hospital School of Nursing and to familiarize the student with the policies of the school. It contains pertinent information concerning the school and the hospital. Each student is required to review the Guidebook and use it as a reference. All students are responsible for the information contained therein.

Students are required to sign the Student Guidebook Acknowledgement Form (below) adhering to the above before the start of classes. (See additional information under: Student Accountability).

Ohio Valley School of Nursing Class of 2021
Student Guidebook Acknowledgement Form

I, _____________________________, am aware of the location of the electronic posting of the Student Guidebook and of any changes and addendums. I understand all changes and addendums will be verbally presented and electronically posted to me with a stated effective date.

I am aware that I am responsible to review and abide by all policies and guidelines within the Student Guidebook.

II. Philosophy and Mission of the School

PHILOSOPHY OF THE SCHOOL

The philosophy of the Ohio Valley Hospital School of Nursing reflects the beliefs of the faculty and supports the mission of the Ohio Valley Hospital. The faculty recognizes the advantage of ties between nursing education and an institution that provides a variety of health care services. The faculty of the Ohio Valley Hospital School of Nursing accepts the responsibility for the planning, implementation, and evaluation of the total program in response to the individual needs of the students, the community, and current nursing practice. We believe that the role of the faculty is to provide educational experiences and guidance to facilitate the learning process and to foster the development of the student as a person and a nurse. The beliefs and values, as set forth in the following concepts, are held by the faculty of the Ohio Valley Hospital School of Nursing.

HUMAN BEINGS

Human beings are multidimensional, bio-psycho-social-cultural-intellectual-spiritual beings in constant interaction with their internal (self) and external environment. Humans are viewed as valued holistic persons, to be respected, nurtured and understood with the right to make informed choices regarding their health. Humans are unique and integrated open systems that interact, interrelate, and are interdependent with the environment. Throughout the lifespan, humans strive to achieve optimal well-being through an interactive process between the internal and external environment utilizing adaptation. Adaptation is a dynamic response to stressors that impact the humans’ physiological, psychosocial, developmental, cultural, and spiritual dimensions relative to their environment.

ENVIRONMENT

Environment is composed of two components, the internal and external systems. Interchange occurs between humans and their environmental systems. The internal environmental system includes physiological, psychosocial, developmental, cultural and spiritual dimensions. The external environmental system consists of groups of humans united by common familial, geographic, socioeconomic, political, spiritual, cultural, and physical characteristics. Environment is diverse and ever changing, constantly influencing and responding to dynamic forces. These surrounding conditions alter health and/or well-being and require adaptive responses. A focus of nursing is to optimize the environment in diverse health care settings to assist the clients to meet their individualized basic needs.

COMMUNITY/CULTURE

Community is viewed as a system of people living a relationship which can be based upon geographic location, cultural ties, and/or bonds of special interest. Community is a focal point of concern for the nurse and is the context in which the recipient and nurse interact. The community has a responsibility to participate in the planning and implementation of health services that affect life
II. Philosophy and Mission of the School

and well-being. We, the faculty, contribute to the quality of life of the community by serving as a resource for group endeavors, providing educational opportunities, and preparing nurse graduates to meet healthcare needs of the community. We believe that nurses cultivate a spirit of community, teamwork, and partnership by collaborating with and empowering others. The nurse's knowledge of culture and cultural concepts can serve to improve the health of the community. Culture is innately related to how individuals, families, and groups within the community perceive issues of health and wellness and guides health care decision-making. The first step in understanding the health care needs of clients is to understand personal culturally-based values, beliefs, attitudes, and practices.

HEALTH

Health is a holistic, dynamic evolving process characterized by adaptive responses to the internal and external environments. It is an integrated, synthesized balance among the internal environmental dimensions of the human being, resulting in optimal use of resources to minimize health alterations. Adaptation is the process by which one attempts to maintain the balance. The degree of balance between the person and the stressors of the internal and external environments determines the person’s level of health.

Health exists on a continuum in which adjustments are made to maintain the relative constancy called homeostasis. Wellness is a state of health in which basic needs are being met and homeostasis is maintained. Health at any given point in time is observed on the health-illness continuum represented by optimal well-being at one end and death at the other end. Primary, secondary, and tertiary prevention measures for health related issues are essential for optimal functioning of an individual across the life span. An optimal state of holistic health is reached when human beings identify and cope with their environmental stressors allowing them to reach their goals to achieve a higher level of wellness and self-defined quality of life.

NURSING

Nursing is a professionally practiced discipline which combines the art of caring and the science of nursing based on current research findings. We believe caring to be a creative and dynamic process as described by Jean Watson’s Caring Theory. “Caring science encompasses a humanitarian, human science orientation to human caring processes, phenomena and experiences.”

(www2.uchsc.edu/son/caring/content/Definition.asp) The science of nursing is the body of knowledge developed from nursing theory and research, as well as knowledge integrated from other disciplines and behavioral sciences. It is the goal of nursing to provide holistic, dynamic, compassionate, and integrated care through use of the nursing process. The process includes therapeutic interventions, communication, clinical judgment and critical thinking. The professional nurse uses leadership and management skills to collaborate with other health team members, individuals, families, groups and communities to promote autonomy in establishing and maintaining an optimal state of wellness, recovery from illness or a peaceful death. As a profession, nursing is committed to assist client systems via clinical judgment in the promotion, maintenance, restoration, and/or rehabilitation of the client on the health-wellness continuum.
II. Philosophy and Mission of the School

TEACHING-LEARNING

Teaching, as a special form of communication, is a transaction involving both learner and teacher where the teacher acts as a facilitator, a role model and a resource person in an environment that fosters learning. It is a system of diverse planned activities including various modes, methods and technologies arranged to bring about learning. Teaching incorporates the knowledge, skill, experience, and expertise of the teacher. It assists the learner to acquire, develop, organize, and structure knowledge and promotes desirable attitudes, habits and skills. Teaching also fosters a spirit of inquiry, a sense of discovery and the desire to pursue self-directed, life-long learning for professional and personal growth. There are various settings in which teaching is conducted. Teaching may be conducted in formal arenas such as the classroom and clinical laboratory as well as informal settings such as clinics, client homes, or the community.

Learning is a dynamic, interactive, continuous, self-directed, life-long process characterized by the acquisition of knowledge, self-awareness and self-discovery. Learning is facilitated by the breadth and depth of ones’ critical thinking, and by cognitive, affective and psychomotor skills, all of which change the behavior of the learner. The learner’s behavioral change results from the interaction of the individual with his/her environment. Each human being has a unique learning style. Learning is an individualized, holistic process which occurs best when learner rights are respected and when the learner accepts and assumes responsibility to be self-directed and to make decisions involving his or her own growth to attain professional and/or personal goals. Learning proceeds from simple to complex, and is enhanced by the correlation of theoretical concepts with clinical experiences over a period of time. Essential to learning is the person’s internal motivation to learn and the ability to act on knowledge once acquired. The learner’s individual interests, attitudes, beliefs, values, and needs affect the process of learning.

NURSING EDUCATION

We believe that nursing education is a multi-dimensional, collaborative process through which critical thinking is developed as knowledge is accrued and competencies are acquired. It is the responsibility of the nursing educator to provide tools to meet the unique needs of the student in an environment conducive to learning and to serve as a role model. Students are viewed as adult learners. In this context, learners engage in the educational process in a spirit of self-directedness by assuming responsibility for learning, thereby providing an impetus for life-long professional and/or personal growth. Nursing education encompasses the teaching-learning activities designed to prepare individuals to assist in the promotion, maintenance, restoration, and rehabilitation of individual clients, families, groups and the community. Within nursing education, the nursing process is utilized as a systematic method of decision-making, designed to facilitate critical thinking for the development and application of nursing interventions to meet client needs.
II. Philosophy and Mission of the School

MISSION STATEMENT OF THE SCHOOL

Based on our Philosophy, we the faculty of the Ohio Valley Hospital School of Nursing, strive to develop and present an educational program to prepare graduates to practice competently and safely in entry level positions in a wide range of settings and to meet the needs of the community. We pursue to instill in our graduates a motivation to continue to develop professionally and personally by maintaining clinical competence, actively participating in professional organizations, and embracing the concept of lifelong learning. It is our mission to develop the student from novice to competent resulting in a nurse generalist proficient in the areas of holism, safety, critical thinking, communication and professionalism.

A. WATSON’S CARATIVE FACTORS

1. Humanistic-Altruistic System of Values
2. Faith-Hope
3. Sensitivity to Self and Others
4. Helping-Trust Human Care Relationship
5. Expressing Positive and Negative Feelings
6. Creative Problem-Solving Caring Process
7. Transpersonal Teaching-Learning
8. Supportive, Protective and/or Corrective Environment
9. Human Needs Assistance
10. Existential-Phenomenological- Spiritual Forces.
II. Program Outcomes

The program will have prepared the student to:

1. Function as a beginning professional nurse in a variety of healthcare delivery settings.
2. Utilize critical thinking and the nursing process to deliver systematic and evidence-based patient care.
3. Reflect ethical values and legal knowledge supporting the profession of the nursing practice.
4. Fulfill the need of educated, trained professional nurses in the community.
5. Embrace self-direction, motivation, and responsibility for professional growth and lifelong learning.

<td>Function as a competent professional nurse in a variety of healthcare delivery settings.</td>
<td>Incorporate holism through Watson’s Carative Factors in meeting the psychosocial, cultural, and spiritual needs of the clients, families, and communities.</td>
<td>Identify aspects of holism related to Watson’s Carative Factors: psychosocial, cultural, and spiritual.</td>
<td>Implement interventions related to an identified aspect of holism related to Watson’s Carative Factors: psychosocial, cultural, and spiritual.</td>
<td>Implement interventions related to an identified aspect of holism related to Watson’s Carative Factors: psychosocial, cultural, and spiritual.</td>
<td>Evaluate interventions for the client with advanced health care needs, related to an identified aspect of holism related to Watson’s Carative Factors: psychosocial, cultural, and spiritual.</td>
<td>Synthesize Watson’s Carative Factors into practice by formulating individualized, culturally sensitive, holistic plans of care.</td>
</tr>
<tr>
<td>Display competence in critical thinking utilizing the nursing process to deliver systematic and evidence-based patient care.</td>
<td>Utilize the nursing process, demonstrating a progression from novice to competent critical thinking in nursing practice.</td>
<td>Explain aspects of the nursing process in client care, implementing novice critical thinking.</td>
<td>Apply the nursing process in client care situations, improving “novice” critical thinking.</td>
<td>Apply the nursing process in client care situations, improving “novice” critical thinking.</td>
<td>Integrate the nursing process in client care situations, progressing to “advanced beginner” in critical thinking</td>
<td>Coordinate and prioritize patient care utilizing “competent” critical thinking in the application of the nursing process.</td>
</tr>
<tr>
<td>Promote client safety, progressing from novice to competent, in the knowledge, skills, and attitudes of evidence-based practices.</td>
<td>Recognize client safety concerns affecting client health promotion.</td>
<td>Implement evidence-based practice interventions to an identified safety concern.</td>
<td>Implement evidence-based practice interventions to an identified safety concern.</td>
<td>Evaluate the effectiveness of evidence-based practice interventions for the client with advanced health care needs, implemented to maintain/improve client safety.</td>
<td>Relate the promotion of organization wide client safety to the National Patient Safety Goals.</td>
<td></td>
</tr>
<tr>
<td>Utilize therapeutic communication, based on the developmental needs of the client/family</td>
<td>Name therapeutic communication techniques to develop a positive nurse-client relationship.</td>
<td>Describe therapeutic communication techniques, based on the client/family.</td>
<td>Describe therapeutic communication techniques to promote.</td>
<td>Determine the client/family member’s developmental stage and implement.</td>
<td>Implement effective communication techniques to promote an effective working environment.</td>
<td></td>
</tr>
</tbody>
</table>
### III. Program Outcomes

| 6 | Reflect ethical values and legal knowledge supporting the profession of the nursing practice. | Perform in the role of nurse educator to facilitate client, family, and community learning of evidence-based practices for the promotion of health. | State the importance of recognizing areas of knowledge deficit in the client and/or family. | Provide evidence-based education to the client/family related to an identified area of knowledge deficit to promote health. | Provide evidence-based education to the client/family with advanced health care needs related to an identified area of knowledge deficit to promote health. | Determine and evaluate effectiveness of teaching/learning strategies utilized for the client/family/community in the promotion of health. | 5 |

| 6 | Integrate ethical-legal principles in the nursing role of client advocate to optimize health promotion. | Discuss the role of the nurse as a client advocate, incorporating ethical/legal aspects. | Discuss actions of the professional nurse as an advocate, incorporating ethical/legal aspects, for the dependent client (pediatric/MH) or in the acute care setting. | Discuss actions of the professional nurse as an advocate, incorporating ethical/legal aspects, for the hospitalized client. | Discuss actions of the professional nurse as an advocate, incorporating ethical/legal aspects, for the client with advanced health care needs. | Recognize Professional and Practice Competencies/Standards as they relate to the nurse in a leadership role. |  |

| 7 | Prepare educated, trained professional nurses to fulfill the needs of the community. | Collaborate with client support systems and the healthcare team to promote patient family centered care throughout the community in a variety of healthcare delivery systems. | Recognize the components of client support systems and health care teams. | Implement nursing interventions that collaborate with the client support systems or the health care team. | Implement nursing interventions for the client with advanced health care needs that collaborates with the client support systems or the health care team in a variety of health care delivery systems. | Discuss and justify delegation and/or collaboration with the interdisciplinary team to promote optimal patient outcomes in a variety of health care delivery systems. |  |

| 8 | Exhibit self-direction, motivation, and responsibility for professional growth and lifelong learning. | Demonstrate behaviors consistent with the role of the professional nurse in all client care and settings. | Recognize behaviors consistent with the role of the professional nurse in all client care and settings. | Begin to incorporate behaviors consistent with the role of the professional nurse in all client care and settings | Begin to incorporate behaviors consistent with the role of the professional nurse in all client care and settings | Uphold behaviors consistent with the role of the professional nurse with all individuals in a variety of healthcare delivery systems. |  |

English II 3cr

Revised 2/2018  Reviewed 6/2019
V. Student Accountability

The student is responsible and accountable for individual active participation in the learning process. The student is required to prepare for each theoretical and clinical experience, to participate actively in each learning opportunity and to pursue academic goals through honest endeavor.

The student is responsible and accountable for individual actions while administering nursing care to the client. The student is to perform nursing care commensurate with the level of nursing education and to adhere to the policies and procedures of the institution where their clinical experience is scheduled.

It is the responsibility of the student to seek supervision from the nursing instructor for any nursing skill or treatment the student does not feel competent to perform.

The student is accountable for the information presented in this guidebook. The student will review the information in this guidebook and will sign the “Student Guidebook Acknowledgement Form”, acknowledging receipt of the guidebook.

The guidebook acknowledgement and all addendums must be signed representing the student’s promise to abide by said policies or the student may be restricted from class and/or clinical activities until the original acknowledgement and/or any addendums are acknowledged.
VI. Academic Policies

A. ACADEMIC INTEGRITY

The practice of professional nursing is identified with a high standard of integrity and ethical conduct. The student is responsible for professional development based on the American Nurses Association (ANA) Code for Nurses. The faculty is responsible for establishing and maintaining this standard in both the clinical and academic settings.

As an institution committed to both professionalism in nursing and the highest standards of professional and academic integrity, the School of Nursing unequivocally condemns any attempt to defraud the institution by any form of academic misconduct.

**Cheating:** Any activity of a student or group of students whose purpose it is to earn a higher grade than would likely be received on the basis of their own achievements. (Ebel and Frisbie, 1991).

**Plagiarism:** Stealing and/or using the ideas or works of others, representing them as one’s own. (Bradshaw and Lowenstein, 1990).

**Examples of Cheating/Plagiarism Include, but are not limited to:**

- Use of any unauthorized assistance in taking quizzes or tests such as using a crib sheet; preprogramming a calculator; using notes or books during a closed book exam; looking at another unsuspecting student’s exam & copying; passing answer via notes; using hand gestures during the exam to indicate exam answers; discussing answers in exam, leaving the exam room to get answers hidden outside of the classroom, using body parts or clothing to hide information for exams; texting and/or photographing answers via cell phone, etc.
- Dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, preparing care plans, solving problems or carrying out other assignments.
- The acquisition, without permission, of tests or other academic material belonging to others.
- Any alteration of original answers on a quiz or test once it has been submitted to the instructor.
- Using another student’s work as one’s own; submitting another student’s papers (client/community assessments, care plans, teaching plans, lab results, project reports, power points, etc.) and representing the work as one’s own; purchasing or copying papers from the internet, etc.
- Knowingly allow another student to use one’s work as his/her own.
- Inappropriately sharing work on online assignments or tests.
- Using false excuses to obtain an extension on due date for course work.
- Plagiarizing by paraphrase or direct quote without full and clear acknowledgment of the source. This includes both published and unpublished materials. Plagiarism is crime punishable by law.
- Initialing for other students on the hourly attendance sheets.
**Fabrication**: “Intentional and unauthorized falsification or invention of any information or citation in an academic exercise.” ([http://umbc/provost/integrity/Honorcode.htm](http://umbc/provost/integrity/Honorcode.htm))

**Collusion**: “The facilitation of academic dishonesty by intentionally or knowingly providing or attempting to provide any form of unauthorized help to a student in violation of this policy.” ([http://www.elmhurst.edu/~lancew/courses/standard/AcIntegrity.htm](http://www.elmhurst.edu/~lancew/courses/standard/AcIntegrity.htm))

**Unauthorized possession**: “Of examinations, through purchase or supply; stealing exams; failing to return exams on file; selling exams; photocopying exams; buying exams; any possession of an exam without the instructor’s permission, etc.” ([http://www.ems.psu.edu/students/integrity/tables.html](http://www.ems.psu.edu/students/integrity/tables.html))

**Ghosting**: “Taking an exam, quiz, performing a lab exercise or procedure in place of another; having another person take a quiz, an exam; or perform an exercise or similar evaluation in place of the student, etc.” ([http://www.ems.psu.edu/students/integrity/tables.html](http://www.ems.psu.edu/students/integrity/tables.html))

**Theft of computer programs**: “Electronic theft of computer programs, data, or text belonging to another student,” the faculty, the School, etc. ([http://www.ems.psu.edu/students/integrity/tables.html](http://www.ems.psu.edu/students/integrity/tables.html))

Any student who participates in any of the above actions which violate academic integrity will result in **disciplinary actions and possible dismissal**. The student may not withdraw from the program during review of an issue related to academic integrity.

A student in violation of academic integrity is entitled to due process. The student will be notified in writing via certified, registered mail or in person of the charge, evidence supporting the charge, and the process to be followed. Disciplinary action will be decided by the course chair in conjunction with the Director of the School. If it is proven that the student is in violation of the academic integrity policy, the student may receive the maximum sanction which includes dismissal from the program.

Undergraduate Council Motion on Statement of Values for Student Academic. UMBC Faculty Senate February 13, 2010. Retrieved May 27, 2010 from: http://www.ems.edu/current_undergrad_students/academics/integrity_policy/precedent
B. CLASS OFFICERS

Officers of the Student Organization shall be the President and the Secretary/Treasurer for each class. Officers, Elections, and Term of Office:
1. Freshman Class will elect a President and Secretary/Treasurer of the Student Organization.
2. The election will occur prior to mid-term of Semester I.
3. A review of the duties of the officers will be reviewed prior to the election of nominees.
4. Class Officers may NOT concurrently hold a SNAP officer position.

Duties of the Student Organization Officers:
The Class President shall:
• preside at monthly class meetings prescheduled and noted on course calendar.
• call special meetings when necessary.
• attend meetings of the Curriculum Committee and all course meetings.
• report pertinent information from the Curriculum Committee to all students.
• secure volunteers from the class to serve on all student committees as needed.
• investigate concerns of the class and provide appropriate feedback.
• act as Chairperson of the Grievance Committee for Student Fair Treatment.

The Secretary/Treasurer shall:
• Keep a record of all class proceedings – via documented class meeting minutes.
• See that copies of the minutes of each class meeting are filed in the Director, School of Nursing office using the Agenda & Meeting Minute Template.

C. CLASSROOM POLICIES

1. A student is expected to demonstrate punctuality for scheduled class.

2. Faculty will close and lock (for the safety and security of all) the classroom door at the beginning of class and will not permit late students to enter until break.

3. Respect for all faculty members and fellow students must be shown at all times.

4. When leaving the classroom, the student should remove all personal belongings and return the classroom to proper order by repositioning the chairs, turning off lights, and disposing of garbage in a proper receptacle.

5. Hourly breaks will be scheduled during theory presentation. Students are expected to adhere to break time limits as set by instructor.

6. When classes are in session, refrain from loud talking in the corridors or classrooms as it can be disruptive to others.

7. Snacks and drinks are permitted in the classroom.
8. Students are not permitted to bring their children to school.

9. Students must obtain permission from faculty to record the class.

i. ABSENTEEISM/TARDINESS

1. The student is permitted a three (3) day funeral leave for a death in the immediate family. Immediate family includes a parent, parent-in-law, spouse, child, daughter-in-law, son-in-law, sibling, or legal guardian. If a close relative dies, the student is permitted a one day funeral leave. Close relative includes grandparent, aunt, uncle, brother-in-law, sister-in-law, niece, or nephew.

2. In the event of an extended illness of three (3) consecutive days or more, a student may continue in the program provided the student has approval of the health care provider caring for him/her to participate in classroom and clinical activities, and is able to meet the course outcomes. Returning to the program is contingent upon the doctor’s written recommendation. The Director will format a plan for the student to complete the program.

3. In the event of pregnancy, the student must notify the Director and Clinical Instructor as soon as possible and provide a written health care provider’s permission for the student to participate in classroom and clinical activities.

4. Scheduling a vacation without prior approval by the director during an academic year is an unexcused absence and will be subject to the attendance policy.

5. Attendance is mandatory. A doctor’s excuse may be required at the discretion of the director and/or instructor.

6. On the first day of return after an absence, the student must contact the course chair to discuss work missed and/or to schedule taking a make-up exam. Failure to report to the course chair will result in implementation of the student misconduct policy. Failure to report to the course chair within three (3) days of the regular schedule exam will result in a grade of zero (0%) for that exam.

7. Students reporting late on the day of an exam will be given the option of completing the exam in the time remaining or taking an alternate exam at the end of the school day.

ii. THEORY ABSENCE

A. Students are required to record daily attendance either on paper or electronically as determined by the instructor. This serves as a record of their attendance for each class session. Students ARE NOT PERMITTED to record attendance for anyone other than themselves.
VI. Academic Policies

Classroom attendance is recorded in accordance with federal financial aid regulations. Regulations state a student must not miss greater than 10% of total theory credit hours per course. This attendance information becomes a part of the student’s permanent record. Once a student misses 5% of total theory credit hours per course he/she will be notified.

B. If the student is absent from class, the student is responsible to obtain from their peers, not faculty, the content and announcements missed due to the absence. Written assignments due on the day of an absence are expected to be electronically submitted in time unless arrangements for an extension have been made prior to the due time.

C. If absent from class on the day of an examination, the student will be required to take an alternate examination on the day he/she returns to school. With the exception of the math tests, any of the following testing formats may be utilized: essays, true-false, fill in the blank, short answer, etc.

D. The following guidelines will be in effect for students who are absent on the scheduled date of the examination:
   a. The student must verbally call off or leave a voice message to the instructor/course chair 1 hour prior to the scheduled start of the examination.
   b. Failure to take the exam at the originally scheduled or rescheduled time (without an approved absence or mitigating circumstance), will result in a decrease of 6% of the total exam points.

D. CLINICAL POLICIES

   i. CLINICAL ABSENCE

1. Attendance is mandatory for all clinical experiences including clinical laboratory. In the event of tardiness or absence, the student is required to call the clinical instructor at least one hour prior to the start of the clinical experience.

2. Total clinical absences are recorded on the student’s final transcript and become part of the permanent record. Clinical absences will also be recorded on the Clinical Performance Review.

3. Make-up may be required for absences. (See clinical make up policy)

4. A student who is more than 30 minutes late for direct patient care experience is not to report for clinical. The entire time missed will be counted against the total absent time. If not appropriately called off, the absence will be reflected in the professionalism outcome on the Weekly Clinical Performance Review.

5. A student who does not arrive prepared (including dress code appropriate appearance) and on time for alternative clinical experiences (skills, sim, observation, and conferences) will not be
permitted to attend the experience. A makeup assignment may be required at the discretion of the instructor. Failure to arrive on time for alternative clinical experiences will result in a “0” in professionalism on the weekly CPR.

6. When a student’s clinical absence exceeds 10% of the course the person will be dismissed from the program. If mitigating circumstances exist to cause an extended clinical absence refer to the “leave of absence policy” within this guidebook.

**ii. CLINICAL MAKE UP POLICY**

Clinical make-up assignments will be at the discretion of the Course Chair and Clinical Instructor. To meet the outcomes the Instructor may require the student to complete clinical make-up by a written assignment, a computerized assignment, or another clinical patient assignment as deemed by the instructor. If a clinical patient assignment is required, make-up days and times will be pre-determined and listed on the course schedule. Some clinical make-up may be required to be completed prior to the next clinical experience. All clinical make up must be satisfactorily completed to progress in the program.

**iii. CLINICAL PERFORMANCE REVIEW (CPR)**

The Clinical Performance Review (CPR) will consist of a grid listing the course outcomes specific to that course and columns for: a student reflection on how each course outcome is met, a student self-evaluation score of the performance, a faculty score of the student’s performance, and faculty/student comments.

The Final Clinical Performance Review (FCPR) consists of four sections: The main section where scores from the Weekly Review are transferred and a course final score is recorded, a second where additional clinical requirements are signed off by faculty, a third where absences are recorded, and a fourth section where the midterm (except Nursing 2) and final Clinical Review scores are recorded, comments can be made, and the document is signed off.

**PURPOSE:**

• To allow the student to review and self-evaluate his/her clinical performance.
• For faculty to provide to the student objective feedback on clinical performance.
• To document an overall evaluation of the student’s ability to meet course outcomes through reflection, observation, and feedback.

**TIME FRAME:**

The Clinical Performance Review (CPR) will be used in its entirety throughout the course during weeks of direct patient care experiences. Specific sections will be utilized for non-direct clinical experiences.
WEEKLY CLINICAL PERFORMANCE REVIEW GUIDELINES:
At the completion of each clinical week the student will:
1. Obtain the Clinical Performance Review (CPR) from the Google classroom.
2. **BRIEFLY** review critical thinking and clinical decisions made in relation to course outcomes, and how those actions allowed the student to successfully meet the outcome.
   - Fundamentals Clinical up until mid – clinical: document the above weekly for EVERY course outcome on the CPR.
   - Fundamentals second half, N1, N2, and N3: document the above weekly for the course outcomes designated as weekly course outcomes. For the other outcomes, as noted, the student need only document until a 2 is achieved in each clinical rotation (second half of Fundamentals, Developing Family, Mental Health and Medical – Surgical Nursing).
3. Self-evaluate the critical thinking and clinical decision making reflected in the review of course outcomes using the attached Criteria for Clinical Evaluation Scale. Score the final course outcome on professionalism as a 0 or 3 only.
4. Electronically submit the completed Clinical Performance Review (CPR) by the due date and time to the appropriate clinical instructor.
5. Review faculty feedback and evaluation scores on the returned Clinical Performance Review (CPR).
6. (Students may obtain a copy of the blank FCPR (Final Clinical Performance Review (CPR) -Student Worksheet from the Google classroom to record and track clinical scores throughout the course).
7. Observational experiences and other clinical activities will be scored on the FCPR using the O - Outstanding, S – Satisfactory, U – Unsatisfactory scale. An “S” is required in all areas of OSU grading to progress in the program. (See OSU Grading policy under Evaluation).

LATE / UNACCEPTABLE PAPERWORK:
Direct Clinical Experience Paperwork (CPR and clinical paperwork) turned in late or in an unacceptable manner, will receive a 0 in all outcome criteria on the CPR.
- Students may request an extension prior to the deadline. Extensions are at the discretion of the clinical instructor.

MID CLINICAL AND FINAL CLINICAL PERFORMANCE REVIEW GUIDELINES:
A faculty member will perform a mid-clinical and final clinical evaluation with the student based on the documentation on the weekly CPRs.
The student must:
1. In Fundamentals, achieve ≥ 1.4 at mid-clinical in all outcomes. Failure to achieve a ≥ 1.4 will result in implementation of a clinical algorithm.
2. In Nursing I, Nursing II, Nursing III, achieve ≥ 2.00 in all Outcomes by mid-clinical. Failure to achieve ≥ 2.00 in any SLO at Mid-Clinical is deemed unsatisfactory performance and will require demonstration of improvement over the remainder of the course.
3. Achieve scores which will result in a cumulative average of >2.00 in all weekly SLO’s, and achieve at minimum 1 (one) “2” in each clinical rotation (Second half of
OHIO VALLEY HOSPITAL SCHOOL OF NURSING STUDENT GUIDEBOOK 2021

VI. Academic Policies

Fundamentals, Developing Family, Mental Health, and Medical – Surgical Nursing) in the non-weekly SLO’s by the Final Clinical Evaluation. Failure to achieve scores which will result in a cumulative average of >2.00 in weekly SLO’s or failure to achieve at minimum 1 (one) “2” in the non-weekly SLO’s per clinical rotation (as above) will result in a failure for the clinical component of the course due to an inability to meet minimal competence of the clinical student learning outcomes. This will result in immediate dismissal.

4. Schedule a mid-clinical and final clinical evaluation meeting with the assigned clinical instructor
5. Review with the clinical instructor the clinical performance related to the course outcomes at the mid-clinical meeting and final clinical performance review.
6. Document any necessary comments in the comment box and sign the Mid Clinical and Final Clinical Evaluation.

The students must also satisfactorily meet all expectations of CLINICAL COMPETENCIES, conferences, skills labs, and simulation labs to successfully pass the clinical component of the course.

Clinical Performance Review Scoring Criteria based on MSU Northern Nursing Program CET

3=Exceeds expectations
At this level of performance, the student:
• Demonstrate skills beyond required expectations
• Advanced prioritization
• Advanced time management
• Exceeds expected outcomes consistently
• Rarely receives physical and/or verbal directive cues

2= Meets expectations:
At this level of performance, the student:
• Demonstrates required skills
• Consistent in prioritizing
• Effective time management
• Meets expected outcomes with minimal direction the majority of the time
• Requires occasional physical and/or verbal directive cues

1=Needs Improvement
At this level of performance, the student:
• Inconsistent demonstration of skills
• Inconsistent in prioritizing
• Inefficient use of time
• Only meets expected outcomes with direction
• Requires frequent physical and/or verbal directive cues

0= Unprofessional/unsafe
VI. Academic Policies

At this level of performance, the student:
• Unable to demonstrate skills
• Unable to prioritize
• Inefficient use of time
• Unable to meet expected outcomes
• Requires continuous physical and/or verbal directive cues
• Demonstrating unprofessional behavior.

iv. MEDICATION ADMINISTRATION COMPETENCY

Purpose: To demonstrate competency in math calculations and/or medication administration.

• Fundamentals: A basic math exam based on the ATI Dosage Calculations modules will be administered during the course. **A student will be given three (3) attempts to achieve an 80% or greater on the math exam.** Mandatory remediation work will be assigned to the student(s) prior to each exam attempt. Failure to complete the remediation and/or tutorial session will result in forfeiture of the opportunity to take the math exam. A minimum of two (2) days must lapse between exam attempts. **Failure to achieve 80% on the math exam after the third attempt will result in dismissal from the program as the student will not be able to meet the clinical objectives of the course. Students will not be permitted to administer medications on the clinical unit until achieving the required score.**

• Subsequent math exams will be administered in Nursing I and Nursing III requiring a 80% or greater after the third attempt as described above.

• Calculators provided by the school will be permitted.

• Remediation resources are available to students in the form of: ATI Dosage and Calculation Tutorial, math practice worksheets and drug calculation books.

Beginning in the **Fundamentals** course, a student may administer medications with the following stipulations:
1. The policy of the clinical site permits student to administer medications.
2. The student successfully achieves 90% or greater on the course math exam.
3. The student is able to verbalize required information about the medication to the instructor.
4. The student administers medications under the direct supervision of the Clinical Instructor or nurse preceptor in the Leadership course.

E. COMMUNICATION- The communication policy is only in effect when class is in session.

i. EMAIL
Email is a form of formal communication between OVH SON administration, faculty and students. Students are assigned an official SON Gmail upon admission that is active until one-year after graduation. Students are required to read and respond to emails in a timely fashion. (Monday, 8AM to Friday, 4PM, within 24 hours; weekends: Friday 4PM to Monday 8AM, and holidays, by the start of class Monday, or the first day back.) Students must recognize that emails may contain time sensitive material. A student’s failure to receive and read SON emails in a timely manner does not absolve the student from knowing and complying with the information and responsibilities contained in the email.

If a student chooses to redirect/forward their official SON Gmail to another email address, they do so at their own risk. The SON is not responsible for emails that are lost in the forwarding process or downtime and errors of alternative email servers. Therefore, in the event of lost email or alternative email server downtime or errors the student remains responsible for the contents and responsibilities contained within the email communication.

Faculty are also required to read and respond to student emails in a timely fashion. (Monday 8AM to Friday 5PM, within 24 hours; weekends, Friday 4PM to Monday 8AM, and holidays, by the start of class on Monday, or the first day back.)

**ii. TELEPHONE CALLS**

Telephone calls between administration, faculty, and students may be necessary on occasion. For example, emergencies, class delays or cancelations, change of clinical, reporting off, or assignment details/questions. Telephone communication should be respectful and courteous using an adequate volume of voice. The caller should clearly identify themselves and the reason for the call. Telephone messages should be returned within 24 hours Monday 8AM – Friday 4PM, weekends and holidays by the start of class the first day back. Faculty is not required to answer phone calls weekdays after 9pm. Avoid placing any phone calls on weekends. Do Not place more than one call regarding the same subject within a 24 hour time period. Faculty will respond within the appropriate time frame. Faculty may indicate alternate guidelines during individual course orientation.

**iii. TEXT MESSAGING**

Text messaging between administration, faculty, and students may be necessary on occasion. For example, emergencies, class delays or cancelations, change of clinical, reporting off, or assignment details/questions. Text messaging is preferred over telephone communication. Text messages should be respectful and courteous using proper grammar and punctuation. The sender must identify
themselves and the reason for the message. Text messages should be returned within 24 hours Monday 8AM to Friday 4PM, weekends and holidays upon returning to work/class. Faculty may indicate alternate guidelines during individual course orientation.

iv. GOOGLE CLASSROOM

Google Classroom is also used for communication throughout the program. It is necessary to check Google classroom for course communication and updates on a frequent and consistent basis, and a minimum of once a day.

V. GENERAL COMMUNICATION

1. A student is not permitted to receive personal phone calls on hospital phones. This is in accordance with hospital personnel policy.
2. In the event of an emergency, a call may be made directly to the School of Nursing. This applies whether the student is on the clinical unit or in class.
3. The school office phone number is (412) 777-6204.
4. Personal use of cell phones (including texting) is not permitted during class unless permission is granted by the instructor for educational purposes.
5. During testing and test review all cell phones are to be placed in the front of the class.
6. Use of cell phones during any clinical experience on the clinical unit is not permitted unless permission is granted by the instructor for educational purposes. Absolutely no cell phone photography permitted on the clinical unit.
7. Unauthorized, unapproved, or inappropriate use of cell phones will result in disciplinary action and potential dismissal from the program.

F. CONDUCT IN THE HOSPITAL

1. The student is expected to be courteous and respectful at all times and maintain professional standards as defined above.
2. A low, clear, well-modulated voice is essential. Unnecessary and loud conversation should be avoided at all times. This applies to hospital premises including but not limited to: patient rooms, nurses’ station, corridors, elevators, cafeteria, and walking to and from the hospital.
3. The student must report to the clinical instructor and to the staff nurse assigned to the student’s patient(s) when leaving or returning to the unit.
4. Students are not permitted to leave the clinical site during lunch.
5. Gum chewing is NOT permitted in the clinical area. No eating or drinking is permitted on the clinical unit.
6. The student is not permitted to make or receive personal telephone calls (including cell phones) when on the clinical unit. Emergency calls are to be made to the school of nursing office (412-777-6204).
7. Cellphone use on the clinical unit is defined in the Communication Policy.
8. When answering the telephone in the hospital, the student should state the name of the unit and the student’s name. Example: “Fourth Floor, Miss Smith, student nurse”.

9. Confidentiality is essential. Information pertaining to affairs of the patient or the hospital must be held in strict confidence. Any information, written or verbal, should not identify the patient in any way. Patient information is only to be discussed in the clinical area, conference rooms, or classrooms. Discussions about patients are not to take place in elevators or cafeterias. Compliance with all State and Federal law is mandatory. Health information will be protected according to HIPPA requirements. Patient privacy rights will not be violated in the hospital or at any other location or time.
   • It is not acceptable to use the computer to browse patient information unrelated to the student assignment at any time for any reason.
   • The student must prevent visitors from viewing any form of patient information, hard copy or on a computer screen.
   • OVH students are only permitted to use, view, or disclose medical information as defined by law. Do not share or discuss patient information with relatives, friends, co-workers, or students, except within a closed conference room or classroom for the distinct purpose of meeting clinical outcomes.
   • All patient identifiers must be removed from any clinical documentation prior to leaving the clinical unit.

G. DISCONTINUATION OF PROGRAM

i. DISMISSAL FROM THE NURSING PROGRAM

A student may be dismissed from the School of Nursing for any of the following violations:

1. Any criminal act.
3. Violation of a school or hospital policy.
4. Any purposeful act which endangers the safety and wellbeing of patients.
5. Non-compliance with the school’s policy regarding substance abuse.
6. Failure of the theoretical or clinical component of a nursing course.
7. Failure of a college course (final grade of “C minus”, “D” or “F”).
8. Failure of math competency exam per policy.
10. Violation of professional standards including academic integrity policy (see explanation of professional standards under Academic policy L).
11. Exceeding the maximum amount of three (3) misconduct warnings per the Student Misconduct Policy.
12. Any violation of HIPAA including, but not limited to unauthorized computer access of patient information.
13. Violation of the Social Media Policy.
VI. Academic Policies

14. Theft – Theft is defined as: the taking of another person’s property or services without that person’s permission. Theft of any school (library books, sim or skills supplies/equipment, et.) or institution property without permission will be dealt with through the disciplinary process including possible dismissal from the program.

Any prospective or current student who is employed within the Ohio Valley Hospital system and dismissed under “Do Not Rehire” status may be permanently dismissed from the School of Nursing at the discretion of the Director, School of Nursing and Chief Nursing Officer, OVH.

ii. LEAVE OF ABSENCE

A leave of absence MUST be requested in writing and must be approved by the Director of the School of Nursing. A student may take no more than one (1) leave of absence in a twelve-month period; the leave may not be in excess of two (2) weeks in duration. A leave of absence in an excess of two (2) weeks will result in withdrawal from the program. Make up of all work (theory and clinical) is required. Special consideration will be given in mitigating circumstances at the discretion of the Director of School of Nursing.

iii. WITHDRAWAL FROM THE NURSING PROGRAM

1. A student may withdraw from the nursing program at any time unless the student was terminated (dismissed) from the program or the student failed a course theoretically or clinically. The student is required to submit/return the following:
   • A dated letter to the Director of the School of Nursing, stating official withdrawal from the program, effective date, and the reason for withdrawal.
   • Hospital identification badge

2. The student must make arrangements for a final conference with the Director.

3. A student who withdraws during a term is assigned a “W” grade. The student will receive a “W” if withdrawal is prior to the 50% completion for the course. After 50% of the course has been completed, the student will receive a “WP” if they are passing or a “WF” if they are failing at the time of withdrawal. The “W” grade does not negatively impact a student’s Q.P.A.; however, the course must be completed to progress in the program.

4. The student must meet with the Financial Aid Officer to meet all financial / scholarship obligations before withdrawing. A student who does not officially withdraw from the school and/or college or who fails to complete a course will receive a grade of “F”.

5. The student is required to clean out the provided locker space on the first floor within 24 hours. Items not removed from lockers will be disposed of by school personnel.
H. DRESS CODE

1. OVH School of Nursing uniform will consist of the following:
   - Royal blue scrub pants, top and optional OVH School of Nursing lab jacket. The OVH School of Nursing emblem must be sewn on the left shoulder of the scrub top and lab jacket. Students may also elect to wear a white shirt under the scrub top. No pins or other adornment may be worn on the uniform. Sweat suits, jackets, nor coats are part of the uniform. OVH School of Nursing approved sweatshirts will only be permitted during non-clinical activities.
   - Only white or black socks (above ankle with no designs) and non-cloth, skid proof, white or black shoes are to be worn. Shoes and shoe laces must be clean and well-kept at all times. Shoes should be as plain as possible with no decoration or added color.
   - Student photo ID badge is to be worn above the waist at all times. No additions or alterations to the photo ID are permitted. No admittance to class or clinical will be permitted unless an official ID badge is worn.
   - Body art must be covered when in uniform.
   - Additional requirements for clinical experiences: Specific modifications may be implemented at individual clinical sites.
   - A wristwatch that displays seconds. No other wrist jewelry or activity trackers permitted.
   - A black/blue ball point pen. No felt-tip or erasable pens. (No pens permitted in Sim/Skills labs).
   - Loose hair is to be off the collar and away from face. Long hair must be secured as to prevent falling forward during patient care. Hair must be neat in appearance.
   - Artificial nails or nail adornments of any kind are not permitted. Nails must be clean and less than ¼” above fingertip. Neutral colored, non-chipped polish is permitted.
   - No perfume or cologne.
   - No gum.

2. The school uniform is required to be worn for all classes and clinical on the OVH campus and other contracted clinical sites, as well as all school-sponsored functions on and off the OVH campus, unless otherwise specified. The uniform must be properly fitted, hemmed, clean, and wrinkle-free. Colored or printed undergarments cannot be visible.

3. Dress that is appropriate, modest and in good taste is expected for school functions that do not require your uniform. (Business casual, NO jeans. NO open toed, backless, or tennis shoes).

4. At all times, students are expected to be properly groomed. Hair should be clean and neat. Extreme hair color/hairstyles and/or extreme make-up are never permitted. Male students are to be clean-shaven, or may wear a beard or mustache that is neatly trimmed. Nails are to conform to clinical dress code.

5. The jewelry restrictions on the clinical unit are the following:
   a. A plain wedding band is permitted.
   b. Necklaces may not be visible or dangle outside of clothing.
VI. Academic Policies

c. One pair small spherical (no larger than ¼ inch in diameter) post-type pierced earrings is permitted. One post earring per ear lobe is permitted. No dangling earrings are permitted. No other visible body piercings or gauges are permitted.

d. For students’ safety absolutely no intradermal implants.

6. No visible body art is permitted. All body art must be covered.

7. Specific modifications may be implemented at individual clinical sites.

8. A student in violation of the dress code will be sent home and charged with absent time. Repeated violation of the dress code may result in implementation of the student misconduct policy and potential dismissal from the program.

I. EVALUATION

If a student scores less than the required passing score of 77% on any exam, the student is encouraged to schedule a meeting prior to the next exam. Failure to adhere to this policy may result in the implementation of the Student Misconduct Policy.

i. ATI ASSESSMENTS

Assessment Technologies Institute (ATI) resources have been incorporated into the curriculum to assist the student to enhance academic and NLCEX success. Live orientation sessions regarding ATI products and their use will be presented throughout the program.

Skills Modules:
ATI provides online skills and review modules that include written and video materials in all content areas. Students are encouraged to use these modules to supplement course work. Instructors will assign these during the course and/or as part of active learning/remediation.

Tutorials:
ATI offers unique Tutorials that teach nursing students how to think like a nurse, succeed on a nursing assessment, and make sound clinical decisions. Nurse Logic is an excellent way to learn the basics of how nurses think and make decisions. Learning System offers practice tests in specific nursing content areas that allow students to apply the valuable learning tools from Nurse Logic. Features are embedded in the tutorials that help students gain an understanding of the content, such as a Hint Button, a Talking Glossary, and a Critical Thinking Guide.

ATI Tutorials: Pharmacology made Easy, Real Life Scenarios, and Dosage Calculations must be completed with a “Satisfactory” or a 77% or better. As many attempts as necessary to achieve these scores may be made PRIOR to the due date and time. Failure to achieve the above stated required scores will be considered as an unsatisfactory assignment and reflected as such under professionalism on the Clinical Performance Review.
Assessments:
Standardized Assessments will help the student to identify what they know, as well as areas requiring active learning/remediation. There are practice assessments available to the student and standardized proctored assessments that will be scheduled during courses.

Active Learning/Remediation:
Active Learning/Remediation is a process of reviewing content in an area that was not learned or not fully understood as demonstrated on an assessment. It is intended to help the student review important information to be successful in courses and on the NCLEX. The student’s individual performance profile will contain a listing of the topics to review. The student will remediate, using the Focused Review which contains links to ATI review modules, media clips, and active learning templates. The instructor has online access to detailed information about the timing and duration of time spent in the assessment, focused reviews, and tutorials by each student.

Content Mastery Series (CMS):
CMS is designed to provide assessment data regarding a student’s mastery of concepts in specific areas linked to the NCLEX® test plan. Subjects addressed include the following:

</table>

1. Preparing for an ATI Proctored Assessment.
   a. Students are required to take the assigned practice assessments (A & B). Students are encouraged to complete these assessments during student study sessions as designated on the course calendar. Following the practice assessment, students are required to complete the ATI Focused Review with three trigger points on the results of their first attempt as remediation. (The student may attempt the Assessment as many times as desired for mastery, but it is the FIRST attempt for which the remediation is completed). This remediation must be completed and submitted prior to admission to the scheduled proctored assessment.

   b. Remediation will consist of the following:
      - The student will create a Focused Review of the practice assessment.
VI. Academic Policies

- Log into the ATI website at http://www.atitesting.com
- Open My Results and Remediation tab
- Select the Focused-Review icon that corresponds to the examination to review
- Utilize links provided to video clips and relevant pages in the respective Content Review Modules for review of specific content
- Print out items to review that were missed on the practice assessment.

Following completion of the required focused review, students will identify three trigger points for each item not mastered and listed on the Topics to Review from the FIRST ATTEMPT at the practice assessment. Submit completed trigger points along with a print out of the items to review to the course advisor.

Failure to submit both documents prior to the proctored assessment will result in zero points for the assignment and possible institution of the Student Misconduct Policy.

Following completion of the proctored assessment, the remediation process stated above is to be initiated and followed through to completion.

Content Mastery Series | Grading Rubric (Revised 6/2018 & 7/2019)

ATI assessment points are part of the student’s overall theory grade

<table>
<thead>
<tr>
<th>PRACTICE ASSESSMENTS</th>
<th>Remediation: • Minimum one hour Focused Review for each practice assessment • For each topic missed, identify three critical points/trigger points to remember.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2 points for each Practice &amp; Remediation*</td>
</tr>
<tr>
<td></td>
<td>(NII = 2 points for the one Practice Exam + 2 points for the remediation = 4 points)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Standardized Proctored Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Level 3</strong> 5 pts</td>

<tr>
<td><strong>1 pt. for remediation:</strong> (Optional) • Minimum one hour Focused Review • For each topic missed, identify three critical points/trigger points to remember.</td>
</tr>
<tr>
<td><strong>Total Points = 9/10 or 10/10</strong></td>
</tr>
</tbody>
</table>
VI. Academic Policies

- Three trigger points for each item to review must be completed and accurate to receive remediation points.

- Failure to follow this policy will result in a loss of points and possible institution of the Misconduct Policy.

ii. EXAM DAY

Students are to arrive 15 minutes prior to the scheduled exam time to do the following:

1. Place ALL belongings including phones and I or smart watches in lockers. (Oversized back packs and/or electronic brought into the classroom are to be left at the front of the classroom).
2. Go to the computer closet across from the Rosetta auditorium to get your laptop (leave your ID).
3. The student may take a blank piece of scrap paper and/or an exam Self-analysis tool when entering the classroom.
4. Sit in your place preparing the laptop for the exam.
5. Only students with laptops prepared to take the exam should be in the classroom prior to the exam on exam day.

When the student is finished:

1. Quietly get up with your laptop open.
2. Show the instructor proctoring that you have signed out of Exam soft by displaying the green checkmark.
3. Show the instructor the Self-analysis form – it may contain slashes only.
4. Place your scratch paper on the front table. Papers distributed for scratch and calculations must be returned.
5. No documentation r/t the exam may leave the classroom after the exam or review.
6. QUIETLY leave the room.
7. Return your laptop directly to the computer closet.
8. Do not return to the classroom until the proctoring instructor has opened the door.

i. EVALUATION / GRADING

1. Theory Evaluation / Grading

<table>
<thead>
<tr>

<td>0</td>
<td>0 - 76</td>
</tr>
<tr>
<td></td>
<td>W (withdrawal)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

There will be no rounding of scores.
A student must achieve a “C” (77% - no rounding) in theory in all nursing courses to remain in the nursing program. In the Leadership course, the theory grade will consist of two parts weighted equally: unit exams - 50%, and papers/presentations – 50%.

QPA is calculated using a point system, utilizing a computer program to avoid any errors. All courses required for completion of the program (including transfer credits) are included in the QPA calculation.

2. Clinical Evaluation
Clinical is overall graded as Pass/Fail based on the Clinical Performance Review (CPR) and successfully completing the clinical competency for that course. Failure to pass the course clinical competency or achieve scores on the CPR which will result in a per rotation or cumulative average of >2.00 in the defined SLOs by the Final Clinical Evaluation (Fundamentals excludes the first half of the CPR from requiring a 2.0 and is not cumulative with the second half required 2.0) will result in a failure for the clinical component of the course due to inability to meet minimal competence of the clinical student learning outcomes. This will result in immediate dismissal. See Clinical Policies: Clinical Performance Review (CPR) for more detail.

O S U Grading Policy for Clinical Experiences/Activities
Clinical observation experiences and other non-direct care activities will be scored on the CPR as O S U (O=Outstanding, S=Satisfactory, U=Unsatisfactory) basis. This will be communicated on the specific activity/experience guideline and the FCPR (Final Clinical Performance Review). All experiences and activities graded on the O S U scale MUST achieve an S (Satisfactory) score to progress in the program. Submissions which do not receive and “S” will require instructor specific remediation assigned in the area of weakness and/or resubmission of incomplete or unsatisfactory work. Failure to remediate and achieve an “S” by the end of the course will result in an “Incomplete” for a clinical grade. Any “Incomplete” clinical grade associated with the aforementioned scenario must be corrected by the start of the next semester or the student will be unable to progress in the program.

Criteria for the O S U (O=Outstanding, S=Satisfactory, U=Unsatisfactory) Grading Scale
Unless otherwise defined on the guideline / rubric, the following criteria will be used to determine O S U grading on qualifying clinical paperwork.

O=Outstanding
To achieve an “O”, the student must fulfill all aspects of an “S” and ALL the following criteria.
- Paperwork is submitted on time
- Documentation has no errors in grammar, punctuation, and correct spelling.
- Outcomes are addressed displaying an advanced understanding of the relationship to the activity/experience demonstrated by thorough documentation and / or correct use of citations;
- And additional assignments are also completed displaying an advanced understanding of the activity/experience demonstrated by thorough documentation and / or correct use of citations.

S=Satisfactory
To achieve an “S”, the student must fulfill all aspects listed or remediate as assigned.

- Paperwork is submitted on time
- Documentation consistently follows the general rules for grammar along with correct punctuation and correct spelling. (Less than 5 errors on the paper).
- Documentation follows the required format as stated on the guideline (if applicable).
- All outcomes are addressed correctly and satisfactorily.
- Any additional assignments are completed correctly and satisfactorily.
- Any required citation is documented appropriately.

U=Unsatisfactory

The student will be scored a “U” if ANY of the following conditions are evident in paperwork submitted.

- Paperwork is not submitted on time.
- Documentation does not display grammar or have correct punctuation and spelling. (More than 5 errors on the paper).
- Documentation does not follow the required format as stated on the guideline (if applicable).
- Any single outcome is not addressed or not addressed completely.
- Any single outcome is addressed incorrectly or unsatisfactorily.
- Any additional assignment is either: not completed, incomplete, addressed incorrectly or unsatisfactorily.
- Any required citation is missing or cited incorrectly.

ii. EXAM REVIEW

Immediately upon completion of the exam in ExamSoft, the student is able to review the exam, with rationales, independently. Faculty conducted exam reviews take place at the end of the day the exam is given provided all enrolled students have taken the exam. Every instructor who had questions on the exam is present to answer student questions and clarify the rationale for the correct and incorrect answers. For each question on the exam an opportunity is given for review. The exam review forum is not to be used for rebuttal of answers.

Students’ desks are to be cleared off prior to the start of exam review. There will be no paper or writing utensils on the students’ desks during exam review. Tape recorders will be turned off and placed in the front of the room during exam review. Students’ cell phones are to be turned off and brought to the front of the room during exam review.

iii. EXAM CHALLENGE

If a student is not satisfied with the rationale given for a question, he/she may submit, in writing or email to the course chair, the Exam Challenge Form with the scientific rationale for the answer chosen with documentation of the evidence based source, faculty presentation, or textbook page supporting the answer. Rationale to the challenged question must be submitted in writing or email, to the course chair before the start of Class or Clinical the next day.
Faculty will respond by the end of the next non-clinical school day to the challenged question with a documented response on the bottom half of the Exam Challenge Form. Two faculty members will review the contested question and sign off on the decision made. The course faculty decision is given to the student in writing and grade, if appropriate, adjusted. Only the student who follows the above process is given any consideration for grade change. After the start of the next scheduled class, test questions from the previous exam will not be reviewed.

**iv. MAXIMUM TIMEFRAME**

A financial aid recipient must complete the program within 150% of the normal program length as measured in months. The maximum time frame for transfer students will be adjusted. Students who exceed their maximum time frame are subject to the loss of financial aid, which can be appealed following the procedures outlined below.

**V. PROGRESSION/PROMOTION**

If all academic, financial, and professional standards of the school are met, the student will progress to the next term. Academically, the student must successfully pass the theory portion of the course AND the clinical portion of the course (as explained above in: i. Evaluation / Grading). The affiliating college may provide one (1) quality point for a “D” grade; however, a “C” (2.0) grade must be achieved to receive credit for the course in the nursing program. The following affiliating college courses must be successfully passed with a “C” (2.0) or better in the semester offered to progress in the nursing program: Anatomy I with lab, Anatomy II with lab, and Psychology. If the student does not receive a “C” (2.0) or better in Sociology, Nutrition, English I, or English II in the semester offered, the student may retake the course, but must successfully pass with a “C” (2.0) or better by the end of the program. Ethics, offered in the final semester, must be successfully passed with a “C” (2.0) or better or the student will not graduate nor be able to sit for boards. Ethics must be completed with a “C” (2.0) or better within one semester or four (4) months of the end of the program to receive the nursing diploma and sit for boards.

**J. GRADUATION**

To qualify for graduation from the nursing program, a student must:

- Pass all required Core Nursing Courses with a “77%” or better.
- Pass all required General Education courses with a “C” grade or better
- Satisfactorily complete all theory requirements in the nursing curriculum.
- Satisfactorily complete all laboratory skill competencies in the nursing curriculum.
- Satisfactorily complete all clinical requirements in the nursing curriculum.
- Complete all ATI requirements and testing including all remediation activities
- Complete all required volunteer hours
- All financial obligations must be met.

**Attendance at Graduation is mandatory.** Mitigating circumstances will be considered by the Director, School of Nursing.
All students attending graduation must conform to the standards of the ceremony as determined by the class and the School of Nursing. Failure to do so may result in being dismissed from the ceremony. Special consideration may be given for qualifying situations.

A nursing diploma will be issued to each student that has successfully completed all the requirements of the nursing program and attended the graduation ceremony.

K. INFORMATION TECHNOLOGY

This policy governs the students’ use of information technology at Ohio Valley Hospital (OVH), including, but not limited to, computers, Google Apps for Education, and social media. Violation of any policies may result in disciplinary action, up to and including dismissal from the program, at the discretion of the Director, School of Nursing.

i. GENERAL POLICY

- Confidential information may not be posted or transmitted in any way that violates Family Educational Rights and Privacy Act (FERPA) and/or Health Insurance Portability and Accountability Act (HIPAA) regulations.

- To protect your privacy and integrity, do not share your password(s) with anyone else or provide another person with access to your user account(s).

- It is the student’s responsibility to remove personal/private information from OVH computers, such as the computers in the Resource Center and those from the Laptop Cart. This includes items in the downloads folder and cookies/browsing history in any internet browser that is used.

- The Resource Center Desktop computers are available for student use. In general, these are available 24/7, with a few exceptions, such as during some types of maintenance.

- Use of software and services provided to you by OVH requires that you read and accept the Terms of Service provided by the software publisher(s).

- Use of computer hardware, software, and/or services provided by OVH for the purposes of obtaining and/or distributing inappropriate, illegal, malicious, unsolicited, or copyrighted content in any file format is strictly prohibited.

- The OVH School of Nursing faculty and Information Technology staff reserve the right to monitor any and all computer activity at any time, for any reason.

- Students may not install software or change settings on any computer that is property of OVH / OVH School of Nursing. If a third-party application needs to be installed for schoolwork, inform
the Academic IT Coordinator and a decision will be made after determining the risk of installing such an application.

- Social media postings must be made in accordance with OVH Administrative Policy HR 210.11
  A. Summary of key points:
  - Communications should not contain any information that identifies a patient’s identity or health in any way.
  - Communications must not contain OVH confidential, proprietary, or trade-secret information.
  - Social media postings should be your own personal opinions and should not speak on behalf of OVH.

- Any social media postings, including text or photographs, representing the OVH Organization, Brand, and/or School of Nursing must maintain a high level of professionalism per the Professional Standards policy defined in the student guidebook.

- Upon graduation from OVH School of Nursing, students will continue to have access to their student email account for one year from the date of graduation. Access to other Google applications (Classroom, Drive, etc.) will be available until the NCLEX is taken for the first time. Access to all other information systems will be revoked immediately upon graduation.

- Upon dismissal or termination from OVH School of Nursing, access to all OVH information systems will be revoked immediately. For this reason, students should take care not to store items needed for other programs, such as coursework for the affiliated school(s), in these systems. There is no guarantee that this information will be retained for any period of time following dismissal from the program.
  - If access to a Google account is required after dismissal or termination, a $50 administrative fee will be assessed and must be paid before access is granted. Access will be granted for no more than one continuous 24-hour period. The access will only be granted starting Monday – Thursday. Access will not be Friday – Sunday.

- On personal devices such as phones or laptops, students are only permitted to connect to the OVHGUEST Wi-Fi network. Connection to any other OVH networks, without permission from IT or the Academic IT Coordinator is strictly forbidden.

- For information on obtaining hospital policy documents, please contact the Academic IT Coordinator.

ii. PRINTING

- OVH School of Nursing provides the printer/copier and toner in the Resource Center for student use.
- Students must supply their own paper.
- The Academic IT coordinator will train students regarding paper loading upon request.
iii. EVALUATION OF COURSES AND DATA COLLECTION

- The accrediting agencies of the OVH School of Nursing require that students complete evaluations for their courses, instructors, and/or clinical sites. Students are required to complete these at the end of each term.

- These required evaluations are anonymous. They require students to be signed into their OVH Schools Google account for identity authentication. Identity information is not collected in these evaluations.

- Some evaluations will collect information that can directly or indirectly identify a student. Some of these are required surveys (e.g. Preceptor survey in the Leadership course). Some of these are optional, such as the demographics survey.

- Bulk survey results are stored in a secure electronic repository that only the School of Nursing Director, the Academic IT Coordinator, and an OVH System Administrator can access.

- Relevant survey results are shared with faculty as necessary.

iv. LAPTOP/COMPUTING DEVICE POLICY

- Students are welcome to use personal laptops and devices for school work, taking notes, and most other school related activities. The policies that apply to OVH systems (especially in OVH Policy AD 253) will apply to your personal devices when you are using hospital IT resources, such as the OVHGUEST internet connection. Students are not permitted to use personal devices when taking exams (in Examsoft/Examplify), completing training modules (in HealthStream), completing ATI proctored assessments, and/or accessing patient data. Extenuating circumstances may allow for adjustment to these restrictions.

- Laptops will be distributed to the students from a laptop cart for testing on Examsoft, ATI, and HealthStream. Any other software platforms, for any reason, may be required to be completed on the laptops, at the discretion of the Director, School of Nursing.

- OVH laptops will be collected when use is complete.

v. LAPTOP SIGN-OUT POLICY

- In general, the OVH laptops are not to be signed-out to students outside of testing situations. In certain extenuating circumstances, a laptop may be signed out to a student provided it does not interfere with an existing testing schedule and is approved by the Academic IT Coordinator. A checked-out laptop must be returned by the time determined by the Academic IT coordinator. If it is returned after this time or not returned at all, a penalty will be assessed each day. Students will
also be held to the Laptop/Computer Damage Policy which may result in additional fees should damage to the computer occur.

- The penalty for not returning a laptop on time will be $50/each 24-hr period, starting immediately after a missed return time. If penalty fees reach the value of the computer, the full value of a replacement computer will be charged to that student and no additional late fees will accrue for that particular laptop. The student will not be permitted to graduate, receive transcripts, or enter into their next course until all penalties are paid in full.

**VI. LAPTOP/COMPUTER DAMAGE POLICY**

- Should any damage, beyond normal wear and tear, occur to an OVH laptop or computer while in possession or use by a student, the student responsible for the damage will be responsible for the cost of repair. In an accident where fault cannot be assigned due to, e.g. lack of evidence, the student who initially signed out a laptop will be responsible for the repair costs. The student will not be permitted to graduate, receive transcripts, or enter into their next course until all repairs/replacements are paid in full.

**L. PRECEPTOR POLICY**  
*Added 2/2019*

**Purpose:** The preceptor program at OVH was designed to be an integral part of the student’s clinical learning process. It provides the students the ability to maintain a balance between nursing theory and practice. This opportunity allows the students to apply their nursing theory to clinical practice while preparing for their professional licensure.

**Outcomes:**
1. Evaluate the effectiveness of teaching/learning strategies in the promotion of health.
2. Investigate client problems, utilizing the nursing process, to provide therapeutic nursing interventions
3. Synthesize Watson’s Theory of Caring into practice
4. Formulate individualized, culturally-sensitive, holistic plans of care in coordination with the interdisciplinary team
5. Evaluate therapeutic & effective communications skills with clients, families, and the interdisciplinary team
6. Incorporate the principles of leadership & management while organizing & prioritizing care for groups of clients in various clinical environments
7. Evaluate the nurse’s role & responsibilities in relation to ethical/legal, clinical, educational, & labor issues of professional nursing practice
8. Critique personal critical thinking skills
9. Integrate the various roles of the professional nurse in the transition from novice to graduate nurse
Preceptor Requirements and Responsibilities: The preceptor must:
- Be a full time licensed RN with a minimum of 2 years’ experience; a BSN is preferred, not required
- Have the recommendation and authorization of their immediate supervisor
- Not be in the disciplinary process or have attendance issues
- Facilitate learning and create an environment for learning
- Possess strong assessment skills and learning evaluation skills
- Have an understanding of the organization’s policies and procedures
- Possess leadership skills and accept accountability
- Attend a mandatory one-time preceptor training class which will include role-playing and preceptor evaluation
- Display competency with an 80% or greater on the post-course evaluation
- Sign the preceptor agreement
- Complete a yearly recertification of responsibilities through Health Stream
- Complete daily clinical evaluations of the student and place them in the designated envelope on the clinical units. (School of Nursing faculty will pick up the evaluations).

Student Clinical Responsibilities: The student will be expected to function as a member of the nursing team on an assigned unit. She/he will be caring for an increasing number of patients under the direction of an RN preceptor. The student will incorporate theory into clinical practice using critical thinking to enhance clinical judgment. Principles of time management, delegation, problem solving and decision making will be utilized and continue to be developed throughout the preceptorship. Each student will be assigned to a faculty member who will meet with the student on a regular basis on the unit to discuss the student’s plan of care for the assigned patients.

STUDENT RESPONSIBILITIES IN COLLABORATION WITH AN RN PRECEPTOR

<table>
<thead>
<tr>
<th>WITH DIRECTION</th>
<th>WITH SUPERVISION</th>
<th>NOT PERMITTED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Verify all medications (including performing drug calculations) with the RN preceptor and administer under their direction</td>
<td>RN preceptor must be present when the student administers any IV medication</td>
<td>Sign out or waste narcotics or initiate, set-up, or co-sign PCA pumps</td>
</tr>
<tr>
<td>Perform nursing skills (NG, indwelling catheter insertion, etc) under the direction or supervision of the preceptor</td>
<td>Venipuncture to establish peripheral IV site with proper dressing applied</td>
<td>Serve as authorized personnel performing the independent double check at the patient’s bedside when preparing or administering high risk medications by any route (insulin, heparin, PCA medications, etc.)</td>
</tr>
</tbody>
</table>
### VI. Academic Policies

<table>
<thead>
<tr>
<th>Manage care of assigned clients: assess, implement interventions, and document as directed by RN preceptor.</th>
<th>Perform central venous catheter dressing changes and obtaining blood draws from central lines</th>
<th>Call a physician or receive phone or verbal physician orders</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follow hospital policy &amp; procedures.</td>
<td>Titration of IV medications</td>
<td>Transcribe or “sign off” orders</td>
</tr>
<tr>
<td>Review monitoring devices and share interpretations with the RN preceptor.</td>
<td>Admit, discharge, or transfer a patient</td>
<td>Initiate, administer, or monitor blood or blood products, and cannot serve as one of the two required authorized personnel when obtaining blood or blood products or identifying a patient to receive blood or blood products</td>
</tr>
<tr>
<td>Recognize a patient condition change, initiate the emergency response system in the hospital and begin basic life support in a verified cardiac/respiratory arrest when necessary.</td>
<td>Obtain direct stick ABG’s</td>
<td>Receive critical lab results</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Be the primary initial contact informing patients/families of change in patient status or emerging health problems</td>
</tr>
<tr>
<td></td>

### M. PROFESSIONAL STANDARDS

The faculty of the Ohio Valley Hospital School of Nursing believes that certain behaviors are necessary to maintain the professional status that nursing has earned. A student in the professional nursing program will:

1. Comply with the designated dress code for class and clinical experiences.

2. Respect the dignity and worth of all people without prejudice.

3. Promote the individual and institution’s right to privacy by maintaining confidentiality according to State and Federal law. Uphold Patient’s Rights, including but not limited to the
right to privacy and confidentiality as defined by HIPAA (Health Insurance Portability and Accountability Act).

4. Maintain integrity of nursing practice by reporting errors to the appropriate persons and accepting responsibility for her/his own actions.

5. Collaborate with other members of the health profession and other citizens in an effort to meet the health needs of the public.

6. Progress through the theoretical and clinical educational experiences through honest endeavors. (See Academic Integrity Policy)

7. Demonstrate behavior that will promote respect for oneself and others and uphold and promote the standards of the nursing profession.

8. Complete all theory and clinical assignments in a timely manner and respect scheduled appointment times.

9. Comply with professional behaviors at all times when wearing OVH SON uniform and/or student nurse ID badge.

10. Comply with social media policy.

Failure to comply with these professional standards will result in implementation of the Student Misconduct Policy. Please refer to the Student Misconduct Policy for more information.

N. REPORTING INCIDENTS

All accidents or unusual occurrences with physicians, staff members, patients, or visitors while on the clinical area are to be reported to the clinical instructor and to the nurse in charge. Occurrence reports will be filed as indicated per clinical site policy.

O. REPRESENTATION ON FACULTY COMMITTEES

Curriculum Committee: one (1) elected student representative from each class will attend regularly scheduled meetings to:

- Provide an avenue for the discussion and resolution of student concerns and complaints.
- Review and make recommendations regarding the educational program and policies affecting students.
VI. Academic Policies

- Recommend standards and procedures for teaching, grading and evaluating the students.
- Communicate recommendations from the Committee(s) to classmates.

Course Meetings: one (1) elected student representative from each class will attend Midterm and End of Course meetings and present to the faculty recommendations from the class to:
- Assess, plan, implement, review, revise, and evaluate the course.
- Review processes for teaching, grading and evaluating the students in the specific course.
- Evaluate learning resources related to the needs of the students.
- Communicate concerns or questions from the class and return communication from the Committee to classmates.

Grievance committee: one (1) elected representative from each class will make up this committee, and assist faculty to:
- Provide an avenue for the discussion and resolution of student grievances.
- Make recommendations regarding the student grievance.
- Maintain confidentiality regarding the proceedings and voting of the committee.
- Purpose: Provide a formal mechanism for the prompt and fair resolution of grievances for academic and nonacademic student matters.

1. Membership:
   a. Chairperson - Director
   b. One faculty member from each level of program
   c. One elected student representative from each class
   d. One member of hospital, appointed by Director

2. Scheduled Meeting Time:
   Meetings are scheduled as needed.

3. Function:
   Refer to the Student Guidebook for function and procedure.

Financial Aid Appeals Committee: one (1) elected representative from each class (these students will be the same elected students as the Grievance Committee) will make up this committee, and assist faculty to:
- Provide a formal mechanism for the prompt and fair resolution of appeals.
- Meetings are scheduled on an as needed basis.
- Refer to Appeals and Reinstatement of Student Financial Assistance policy for function and procedure.
- Purpose:
  Provide a formal mechanism for the prompt and fair resolution of financial appeals.

1. Membership:
   a. Financial Aid Officer
   b. Chairperson - Director
   c. Finance Department representative
   d. One faculty member
   e. One elected student representative from each class

2. Scheduled Meeting Time:
VI. Academic Policies

Meetings are scheduled as needed.

3. Function:
   Refer to the Student Guidebook for function and procedure.

   - A member of the class will also be assigned to attend and supply input from the class on the Graduation Committee.

1. The elected Class President for each class or their assigned representative will serve as the Class representative on the Curriculum and Course Committees. Participation on the Grievance or Financial Aid Appeals Committee will be elected by the class on an as needed basis.

2. In the event of a conflict of interest or a student is no longer available to serve on a committee due to withdrawal or failure, a new student representative will be elected by students or appointed by faculty.

3. Students agreeing to serve on committees must uphold their responsibility to attend meetings in person or by representative; must record and submit class meeting minutes. If the student cannot attend or appoint a representative for course or curriculum meetings, the student is required to turn in to the director written report of student issues prior to the meeting.

P. SCHOOL CANCELLATIONS / DELAYS

Students pursuing a career in the healthcare field should recognize the importance of punctuality and good attendance. Day-to-day operations at the Heritage Valley Health System continue regardless of weather conditions. As an institution responsible to educate future Health Care Professionals, we fulfill the obligation to teach responsibility and professionalism through the expectation of punctuality and good attendance while enrolled in our programs.

Due to the variation in weather conditions across the area and the variation in times and locations of scheduled classes and/or clinical activities, in the event of inclement weather the School of Nursing and School of Radiography will remain open and practicing on the published schedule. Only in the event of an extreme weather emergency or natural disaster will both the Directors of the School of Nursing and the School of Radiography confer and collaboratively close both programs.

- Any student who believes the conditions in his/her area (or the individual actions which must be undertaken in those conditions) present a risk to personal safety has the right to choose to be absent for the day. (This choice should be carried out by following the individual program’s policy for calling off).
- No student will be reprimanded or punished for weather related absenteeism above and beyond the documented school policy for general absenteeism. (Extenuating circumstances to the general absenteeism policy may be waved at the Director’s discretion).
- Students who travel during difficult weather conditions will not be penalized for tardiness.

In the event of a complete school closure, or the individual cancellation of a specific activity by the responsible instructor, students will be notified through the Google Classroom. (If only a small group is involved, the use of individual phone calls or text message may also be utilized).
Due to the requirements of accrediting bodies and/or curriculum needs, to appropriately make up didactic and clinical experiences cancelled, revision of the academic schedule may be necessary and revised clinical activities may be scheduled outside of the published course calendar.

Q. SHADOW HEALTH
Shadow Health is an online digital clinical experience supplement integrated throughout the curriculum. The Shadow Health content being used within the program is the Pharmacology product. The pharmacology product is a set of interactive patient cases that level up in complexity to provide unique learning opportunities as more knowledge is gained. It focuses on pharmacological principles and drug classes. Students practice self-management strategies and care provider considerations, including legal, ethical, and other social factors. In addition to the patient cases there are medication math assignments and concept labs. Shadow Health assignments require mastery through scenarios, and/or quizzes, and in some cases, remediation. For a description of the requirements for the Shadow Health assignments refer to each individual course syllabus.

Shadow Health Assignment due dates are documented on the course schedule and on the Supplemental Due Date Calendar posted in the Classroom. Scoring for the modules and overall course weight is recorded on the Course Syllabus. Some modules state a required minimum score for proficiency and are not included as part of the overall grade. These modules must be completed with a score equal to or better to that listed on the assignment sheet and syllabus or will be recorded as an “I” Incomplete and progression in the program will be affected.

R. SIMULATION POLICY
Nursing students at Ohio Valley Hospital School of Nursing will participate in simulation activities. Simulation activities include simulated clinical scenarios, simulated task training, standardized patient scenarios/cases, debriefings, and/or discussions. The content of these simulations is to be kept confidential to maintain the integrity of the learning experience for all students. Students will be observing fellow students within the clinical simulation laboratories and are not to discuss their performance with anyone outside of the clinical simulation laboratories, except appropriate instructors. The unauthorized release or mishandling of confidential information, or inappropriate exchange of information related to the simulation environment, is prohibited. Students will be required to sign the Simulation Confidentiality Agreement, an agreement acknowledging that the unauthorized release, inappropriate exchange, or mishandling of confidential information is prohibited. Initiation of the Student Misconduct Policy may occur with any violation to this agreement.
S. STANDARDS FOR TYPE WRITTEN WORK

Standards of APA are to be used for any written assignment. Students are expected to utilize the Purdue Owl Writing website (http://owl.english.purdue.edu), which is based on the most recent edition (6th) of the American Psychological Association, as a guide for typewritten work.

T. STUDENT GRIEVANCE

Student Grievance Process - A grievance is an official statement of complaint regarding impingement upon a specific student right. (See V. Student Bill of Rights)

Purpose:
To provide a formal mechanism for the prompt and fair resolution of grievances (problems) or appeals for academic and nonacademic matters. Students may not grieve test questions, refer to Exam Challenge Policy. For issues with ExamSoft, refer to ExamSoft Policy.

To ensure a prompt resolution, each step of the grievance process must be completed in sequence with strict adherence to time limits. Failure to do so results in dismissal of the grievance.

Process:
1. First, the student should discuss the problem (grievance related to the student right) with the involved instructor within three academic days of the incident.
2. If a satisfactory solution is not reached, the student and the instructor will meet with the Director of the School of Nursing within two additional academic days.
3. If the grievance remains unresolved, the student should submit a written request to the Director of the SON detailing the policy or student right in violation, for a meeting with the Grievance Committee. The Director of the SON will convene the Grievance Committee. This written request must be submitted within two additional academic days of meeting with the Director of the SON and include a complete description of the grievance.
4. The Grievance Committee will convene within five academic days of the written request.
5. The decision of the Grievance Committee is final, and will be communicated to the Director of the SON; the Vice President of Nursing Service (if unable to attend); and the President of the hospital within five academic days of the meeting.

The Grievance Committee consists of:
- Director, School of Nursing (Chairperson)
- One member of the School of Nursing faculty from each level
- One elected student representative from each class

Conduct Related to a Grievance that is before the Grievance Committee:
- The decision of the Grievance Committee is final and all involved parties are bound by the decision. There is no further level of appeal.
VI. Academic Policies

- The decision of the Grievance Committee is made by simple majority on the same day as the meeting. In the event of a tie, the Director of the SON will be asked to cast the tie-breaking vote.
- Any written documentation or evidence concerning a grievance must be submitted by the involved parties to the chairperson of the Grievance Committee 48 hours prior to the meeting.
- All involved individuals must be given 48 hours’ notice of the date and time of the Grievance Committee meeting.
- When any member on the Grievance Committee has a conflict of interest related to the outcome of the meeting, the member will be replaced by a peer. The Director of the SON will decide on the replacement.
- The student is afforded a fair opportunity to present the relevant issues of the grievance. The Grievance Committee members may ask objective questions for clarification.
- The opposing side presents the facts and their position. Members of the Grievance Committee may ask questions.
- Each side is allowed one round of rebuttal, after which they are dismissed while the members of the Grievance Committee discuss the grievance behind closed doors.
- All aspects of the grievance procedure are strictly confidential including tallying and outcome of the vote. Student representatives may be dismissed from the program for violating confidentiality.
- A student who has a problem involving the affiliate university should follow the grievance procedure for that institution.

U. Student Misconduct Policy

All students are expected to adhere to OVH School of Nursing and hospital policies and procedures. If a student violates a standard and/or policy (not reflected through the Clinical Performance Review), action will be taken according to the Misconduct Procedure as outlined below.

**Misconduct Procedure**

- A documented *Misconduct Warning* will be completed for each individual offense and forwarded to the Course Chair and the Director, School of Nursing. The third Misconduct Warning within a semester will result in Program Dismissal (PD).
- School administration will consider mitigating circumstances on an individual basis.
- Misconduct Warnings will be progressive through each semester but will not carry over from semester to semester.
- The completed Misconduct Warning will be placed in the student’s permanent record and the student will be given a copy.
- **Serious Offense Violations, as defined in the Academic Integrity policy, may result in a non-expiring or “Program Misconduct Warning” (PMW) or dismissal. Unlike the general Misconduct Warnings, which do not accrue from course to course, the “Program Misconduct Warning” (PMW) is a Misconduct Warning to signify a serious offense just short of that of dismissal, but sparing the student dismissal. This conduct form will NOT expire at the end of each course but will remain and stay permanently on the student record (thus requiring only an addition of two**
VI. Academic Policies

misconduct warnings in a semester to achieve the three resulting in program dismissal).

- Misconduct of Serious Offense Violations may also result in Program Dismissal Permanent (PDP). Depending on the offense, PDP may result depending on the nature of the offense and at the discretion of the Director, SON.

- If signs of impaired behavior are observed, the Alcohol and Drug Abuse Policy will be followed.

Students who wish to dispute the findings may use the Student Grievance Policy.

V. STUDENT BILL OF RIGHTS

Students have the right to:

1. a quality education with accessible, current resources, qualified instructors, and instruction relevant to today’s nurse.

2. representation on School of Nursing committees that plan and review the courses and discuss and author policies related to student/program requirements and expectations.

3. unprejudiced, uniform, objective evaluation, defined and documented in policy.

4. fair treatment and an orderly process in the resolution of issues.

5. no discrimination on the basis of race, religion, color, national origin, gender, age, marital status, sexual preference, economic status, or disability.

6. privacy regarding personal views, beliefs, sexual preference, and political associations, all of which are not to be released without knowledge or consent.

7. the knowledge of what constitutes the student’s permanent educational record and conditions of disclosure of any part thereof.

8. access to a Student Guidebook to reference standing policies and guidelines.

9. anonymously evaluate the School of Nursing in the areas of: curriculum, individual courses, instructors, services, and facilities.

W. SUBSTANCE ABUSE

Consistent with the Hospital’s commitment to a drug-free environment and to the safety and the well-being of its patients, the School of Nursing (as governed by the Hospital) strictly prohibits the following during any school activity or while representing OVH SON:

- The presence of students in class, clinical setting, and/or school related community event while under the influence of alcohol, intoxicants, drugs, or any other controlled substance.
VI. Academic Policies

- The use, possession, transfer, sale or purchase of alcohol, intoxicants, illegal drugs, or controlled substances in any amount, in any manner, or at any time, on the hospital and/or school premises or in a community setting or while conducting Hospital and/or School business.
- The use of school/hospital property, including school/hospital telephones, or any student’s position within the school/hospital to make, transfer, sell or purchase alcohol, intoxicants, illegal drugs, or controlled substances.
- Any other use, possession, sale or purchase of alcohol, intoxicants, illegal drugs or controlled substances in a manner which has adverse impact on the Hospital and/or School of Nursing.
- If there is reasonable suspicion on the part of the School and/or Hospital that a student is under the influence of, impaired by, alcohol or drugs, or is in the possession of or control of alcohol, drugs, or equipment, products, and material that are used and/or designed for use with such substances, the School or Hospital may search any School or Hospital property or the student’s personal property. The student may be requested to submit to a search by the School’s representative of his or her person and/or property.

Ohio Valley Hospital School of Nursing in affiliation with Heritage Valley Health System is committed to assist any student with any type of substance abuse or addiction. Students may request, or if found to be under the influences of illegal substances, will be offered the opportunity to be counseled through the Employee Assistance Program at Heritage Valley Health System.

Prescribed Medication

- Any student who is under prescribed medication or taking any drug which may cause adverse side effects which would prohibit the ability to perform or operate in a safe and productive manner, must report such use to the Director, School of Nursing immediately. Management of the School and/or Hospital will determine if the student will remain at school, be restricted in duties, or sent home.
- If, the amount of prescribed drug taken by a student is over the therapeutic range, and could interfere with school (in class and/or clinical performance), the student will be asked to take a blood test. Any student who refuses to take a blood test will be considered impaired and will be terminated from the school.
- Before being tested, the student should list, on a confidential form that accompanies the sample, any prescribed or non-prescribed medications that could affect the test.

Testing

- Drug tests will be conducted as a routine part of the student’s entrance requirements. Any student may be requested to undergo drug and/or alcohol tests via blood, urinalysis, breathalyzer test or other diagnostic tests if just cause is determined. “Just cause” is determined by the completion of a formal HVHS approved checklist of observed behaviors.
• The Medical Review Officer (MRO) and will be responsible for discussing the test results (both positive and negative) with the student and notifying the Director, School of Nursing of the final report.

Reporting

• A faculty or staff member who suspects possible substance abuse by a student will report the suspicious behavior to the Director, School of Nursing. Any faculty member with evidence that an enrolled student has engaged in clinical care of patients and families or participated in classroom work while impaired will also report their observations to the Director, School of Nursing.

• A student who suspects possible substance abuse or a violation of this policy by another student has the responsibility to report this information. A report can be made to the student’s faculty advisor and/or the Director, School of Nursing. The identity of the individual making the report will be kept confidential to the greatest extent possible consistent with the need to investigate the report and subject to legal requirements.

• Any student convicted of any criminal drug statute occurring while attending the Ohio Valley Hospital School of Nursing or while engaged in Hospital and/or School business must notify the School within three (3) days after such conviction. The student will be terminated from the program.

Notification to law enforcement agencies will be made, at the discretion of the Hospital and/or School, regarding violations of this policy as appropriate and/or necessary.

Financial Responsibility

The School and/or Hospital will cover the financial cost of any initial admission drug test and “Just cause” test it administers. Any further testing required as a result of a preliminary positive is at the cost of the student.

Termination

• Any violation of this policy, including the refusal to immediately submit to a requested search or test, or a positive test result of such test(s) will result in immediate termination from the school.

• Executive management of the governing organization will be consulted prior to disciplinary action taken.

Admission/Enrollment Status
VI. Academic Policies

- Ohio Valley Hospital School of Nursing reserves the right to rescind admission status to the nursing education program should the results of a newly enrolled student’s pre-entrance or post enrollment drug test prove to be positive for illegal drug use.
- Any student with a positive drug screen while enrolled in the School will be terminated from the educational program and will not be granted re-enrollment status. If the student was in the School of Nursing on an OVH Foundation scholarship, the student automatically forfeits the right to this benefit when found to be non-compliant with this policy.

X. VOLUNTEER HOURS

All nursing students currently admitted to the Ohio Valley Hospital School of Nursing on full scholarship are mandated to submit evidence of completing 50 volunteer hours. All non-scholarship students will be required to complete a total of 10 community volunteer service hours within the 2 year program. One half of the community volunteer hours must be completed before the start of Nursing III or the student will not progress. The remaining community volunteer hours must be completed prior to the end of the leadership clinical component in order to receive a nursing diploma. All miscellaneous hours (4 hours total) not directly related to Ohio Valley Hospital must be pre-approved by Ohio Valley Hospital School of Nursing Volunteer Chair. Any nursing student not completing the required number of volunteer hours will receive a blank diploma, must surrender their school pin, and paperwork signifying graduate status will not be sent to the State Board of Nursing, until the volunteer hour commitment is fulfilled.

Students must have the Volunteer Hours Form completed and submitted to the faculty volunteer hour chair to receive credit for volunteer hours.

Students may receive volunteer hours for donating blood but only a total of two (2) hours each ACADEMIC year for blood donations will be approved.

Note: Once you commit to volunteering for an event, you must attend that event or find another OVH student to cover your obligation. If a substitution is not found, the student will have one (1) hour deducted for an event ≤ 4 hours and 2 hours deducted for an even > 4 hours.
VII. Admission Policies

A. ADMISSION

Application

The application packet is available online. The packets are also available through the mail and email upon request. There is a $50.00 application fee (non-refundable) that is to be returned with the completed application. The application packet includes program catalog, brochure and all application forms to be completed for enrollment. The forms will include employment history, names and addresses of three references, a disclosure form and a secondary and post-secondary education history. It also includes questions about misdemeanors/felonies.

High School Transcript

An official transcript (bearing the seal of the school) must be sent. A minimum QPA of 2.0 or greater on a 4.0 scale is preferred. The transcript must reflect passing marks in each of the following:

- 4 units of English
- 3 units of Social Studies
- 2 units of Math (1 must be Algebra with a “C” or greater)
- 2 units of Science (1 must be Biology with a lab, 1 must be Chemistry with a lab both must have a “C” or greater)

If Algebra, Chemistry or Biology is missing, the applicant can take introductory courses at a local community college or equivalent. Any applicant not meeting the preferred minimum 2.0 QPA may receive special consideration in regard to high school QPA and class rank based on faculty consensus of other admissions criteria.

A GED is accepted. The Algebra, Biology and Chemistry requirements, if not obtained in high school, may be taken at a community college or equivalent prior to entrance with achievement of a “C” or greater in each course.

An applicant who is currently enrolled in high school at the time of application should have a current transcript reflecting the cumulative Q.P.A. and required course work, either completed or in progress. Upon graduation (prior to entrance), an official final high school transcript must be sent to the School of Nursing (SON).

College Transcripts

Credits with a 2.0 or greater may be considered transferable. Anatomy & Physiology I and II (8 credits), Microbiology, and Nutrition must be completed within five years of the class acceptance date from an accredited college/university, when an official transcript is submitted with the application. If there is a question about the transferability of a particular course, a course outline or syllabus from the course in question is submitted to the OVH and/or the affiliate college/university instructor.
Anatomy & Physiology I and II must be an 8 credit course and taken at the same institution to be considered for transfer, with the second consecutive course completed within five (5) years.

**Signed Disclosure Letter**

The signed disclosure letter should be returned to the SON and filed in the applicant’s file, indicating that the applicant has been informed of the retention rate, pass rate, and employment rate of recent graduating classes.

**a. TEAS: PRE-ADMISSION EXAMINATIONS**

The applicant is responsible for scheduling the ATI: TEAS pre-admission tests at the School of Nursing. The applicant is responsible for paying the fee to take the pre-entrance tests. Payment is acceptable by check or cash. It is recommended the applicant obtain a minimum Adjusted Individual Total Score of greater than or equal to 68% and a Science score of greater than or equal to 45% (no rounding) on the TEAS Exam to be considered for entry into the program. In the event a less than satisfactory score is achieved, the applicant may take each of the tests a total of two (2) times within a 12 month period.

The final day for application and pre-admission testing is the last business day on or before April 15.

An ATI review book may be purchased from the admissions office prior to taking the test.

Any applicant achieving an overall TEAS score of greater than or equal to 72% and a Science score greater than or equal to 50%, will receive immediate provisional acceptance (pending completion and fulfillment of other admission requirements).

Special consideration for acceptance will be given to applicants who have already completed both A&P I & II and/or Microbiology.

Students who do not achieve scores at the level of immediate provisional acceptance will be placed on a waiting list. Determination of acceptance will be made on or before April 30th.

**b. SCHOLARSHIP REQUIREMENTS**

To be considered for full scholarship (as available), the applicant must score 85% or above on the Adjusted Total Score on the TEAS entrance exam. If accepted into the program, the student will be required to complete 50 hours of community service during the duration of the program and work at Ohio Valley Hospital for three (3) years full time as an RN after graduation. In order to be eligible for a scholarship, the applicant must be a U.S. Citizen or eligible non-citizen. Additional scholarships may be awarded at the discretion of the admissions committee and Director, School of Nursing.

Employees of Ohio Valley Hospital with one (1) year or greater service are considered for a full scholarship with a score of 80% or greater on the TEAS. Employees awarded scholarships must maintain a minimum of casual status (24 hours monthly) to maintain the scholarship. If unable to
maintain minimal required hours the student will forfeit the scholarship and pay for the present and all subsequent semesters.

At the completion of the Fundamentals course, any remaining scholarships may be awarded to students for the remaining three (3) semesters at the discretion of the Admissions Committee based on the following criteria:

- Achieve a final theory grade of greater than or equal to 88% (no rounding).
- Complete clinical requirements with an average score of 2.0 or greater for all outcomes.
- Have no disciplinary issues: Misconduct Warnings and/or algorithms.
- Apply for the scholarship by writing a 500 word essay on: “Why I chose to be a nurse and why I chose Ohio Valley Hospital.”
- All financial responsibilities through the completion of the first semester must be fulfilled before the scholarship will be rewarded.

Students receiving post Fundamental course scholarships must adhere to the same criteria as the full scholarships (volunteer time total is pro-rated to 40 hours).

c. PHYSICAL EXAMINATION REQUIREMENTS Revised 6/2019

1. Each student is provided with a Health Record form. This record is to be completed and submitted to the school before beginning the program. Authorization or pre-certification may be required from the student’s primary care provider (PCP) for payment to be made for any health services. It is the student’s responsibility to obtain a written referral from the PCP before obtaining any care outside the PCP’s office.

2. The Health Record includes the following:
   - Complete physical examination performed by the physician, physician assistant, or nurse practitioner of the student's choice within twelve (12) months of the first day of classes.
   - Included in the complete physical examination is a list of all current medications.
   - A two-step tuberculin test is required.
   - If a two-step was performed within the last year only a one step is required with proof of the previous two step submitted.
   - A positive tuberculin test requires proof of a full size chest x-ray within 12 months of the admission date. A chest x-ray does NOT need to be obtained yearly if the student has a remote history of a positive tuberculin test.
   - Record for polio vaccinations. If unable to provide documentation of polio vaccination record proof of a polio booster is required.
   - Dtap / Tdap immunization within the last ten years must be provided. If unable to provide a record within the last ten years, proof of a Tdap vaccination is required.
   - Titers for Rubella, Varicella, Rubeola, and Mumps are required. Titers must be within a year of the start of class. If titer levels are inadequate, proof of a vaccination booster is required.
   - The Hepatitis B vaccination series (or receiving an additional injections should titers from a previous immunization show inefficient protection) is highly recommended to provide the best protection possible as an individual pursuing a career in the health care field. Proof of the vaccine series or proof of revaccination will be recorded on the health record. **If the student chooses NOT to undergo the vaccination series, the Hepatitis B Declination**
Form must be sign and submitted with all health record documentation. The Ohio Valley School of Nursing cannot guarantee that certain experiences may require proof of vaccination. **Failure to have received the vaccination may require the student to forego a clinical experience.** Make up will be required.

- Special considerations for medical restrictions may be given with approval by the Director, School of Nursing.

**Drug Screen**

All applicants accepted to the School of Nursing are required to have a pre-entrance urine drug screen completed through HVHS Business Fit. Applicants found to be in violation of the substance abuse policy of OVH will be dismissed from the program and will be ineligible for readmission consideration.

**CPR Certification**

Students are required to complete the American Heart Association course in CPR for the Health Care Provider. Certification is valid for two (2) years.

All freshman and readmitted students will attend the mandatory CPR certification course held during orientation in August.

d. **LPN ADVANCE STANDING**

An applicant who possesses previous education and/or experience in nursing will be given consideration, on an individual basis, for Advanced Standing in our RN-diploma program. An official academic transcript from the accredited school of nursing, trade and/or technical school must be submitted with the application. Please include course descriptions with the academic transcript to be evaluated for comparable content hours and subject matter, as taught at Ohio Valley Hospital School of Nursing.

**Licensed Practical Nurses**- applying for Advanced Standing must meet the following conditions:

- Be a graduate of an accredited practical nursing program with a minimum Q.P.A. of 2.5, verified by official transcripts from the school.
- Have verification of active licensure (without disciplinary action) in the United States.
- If not presently working as a LPN- must have graduated within six (6) months from an approved accredited program.
- If working as an LPN, the applicant must have completed the second consecutive required science course within five (5) years. (Consecutive science courses completed at different institutions will be accepted based on the judgment)
- Of the second institution accepting the credits from the first).
- Submission of a favorable professional letter of recommendation from the most recent employer.
- Have successfully met all admission requirements.
- All LPN applicants must fulfill readmission requirements.
e. **READMISSION**

In order to be considered for readmission, the candidate must submit the reapplication form within three months of dismissal or withdrawal and submit a $25.00 fee along with the application.

Any student applying for readmission must meet the following criteria:

1. Must have withdrawn from the course with a “W”, or at midpoint, a grade of greater than or equal to 75% in the last course they attended.
2. Must have displayed adequate attempts to meet an average of 2.0 in all clinical outcomes on the Clinical Performance Review (CPR).
3. Must not have any significant documented disciplinary behaviors. The re-admittance of any student dismissed due to disciplinary actions will be at the discretion of the Director, School of Nursing.
4. Must have completed all general education courses required prior to and included in the course for which the student is requesting readmission.
5. Any applicants returning to the Fundamentals course will go into the pool of applicants and will be notified of a decision by the waitlist deadline date on or before April 30th.
6. Must return to the next cohort.
7. Must pass the skills competencies of all prior OVH SON nursing courses.
8. Must pass the final exam of the prior OVH SON nursing course with a 77% or greater.
9. Mitigating circumstances for admission approval or denial are at the discretion of the Admission Committee and Director, School of Nursing.

f. **SCHOLARSHIP**

The School of Nursing offers institutional scholarships from the OVH Board of Directors and Administrative team and federal and state grant programs to support the cost of tuition for students. Eligibility is limited to US citizens or eligible non-citizens and is generally based on pre-entrance exam scores and academic merit. The Full Tuition Scholarship requires a three (3) year work commitment at Ohio Valley Hospital following graduation. If the work commitment is not fulfilled, institution scholarships must be repaid. Scholarship recipients must complete 50 mandated volunteer hours while in attendance in the program.

**Private Rotary Scholarships:**

The School of Nursing also offers private scholarships from local rotary clubs. These funds are awarded annually to students selected by the OVH SON Admissions Committee who reside in the area in which the Rotary is located.

i. **TRANSFER AND TRANSFER OF CREDITS**

An applicant with previous nursing school education must complete the application process including an official transcript from the previous school of nursing. Due to the wide variances in nursing curricula, nursing credits are not generally transferable. Please include course descriptions with the academic transcript to be evaluated for comparable content hours and subject matter, as taught at Ohio Valley Hospital School of Nursing. Students requesting transfer of nursing credits and
advanced placement in the Ohio Valley Hospital School of Nursing (OVH SON) curriculum must fulfill the following:

- Average of a 3.0 in all nursing courses deemed transferable by the Director, OVH SON
- A 2.0 in every general education/Science course considered for transfer.
- Last nursing course must have been completed within the previous 12 month period.
- All transfers must fulfill readmission requirements.

Credits accepted for transfer will be recorded and kept in the student’s permanent record.

The Pennsylvania State Board of Nursing requires that transfer students complete, as a minimum, the senior or final level in the school granting the diploma. It is the policy of OVHSON to accept credits earned at other colleges, universities, or ACEN accredited schools of nursing. Students may transfer credit only from an institution that has been accredited by Association of Colleges, and Schools or its equivalent.

B. CRIMINAL, AND CHILD ABUSE CLEARANCES (ACT 33/34)/ FBI FINGERPRINTING

Act 33/34 Criminal, child abuse background checks and Act 72 FBI fingerprinting will be completed on all students prior to the first day of class (students are responsible for fees associated with clearances). Prior conviction of a felony or certain misdemeanors, other than minor traffic offenses, may make students ineligible to participate in various clinical experiences and possibly may make it impossible for an individual to complete the scheduled program of study. Additionally, prior conviction of a felony or misdemeanor may make students ineligible for professional licensure, professional certification, or professional registration, dependent upon the specific regulations of individual health professions and state of practice. It is the student’s responsibility to obtain verification of ability to acquire licensure through the Pennsylvania State Board with said violation.

A person convicted of any felonious act may be prohibited from licensure by the State Board of Nursing at any time. Acceptance into the Ohio Valley Hospital School of Nursing does not guarantee approval by the State Board of Nursing to permit licensure.

If a student is charged of a felony, misdemeanor, or other various offense, other than a minor traffic offense, during the time they are a student, it is the student’s responsibility to notify the Director, School of Nursing. A conviction may lead to program dismissal due to the inability to obtain state licensure.

Any false statements made by the applicant at any time during the application process, or refusal to submit or consent to a criminal and child abuse background check will disqualify the applicant from participation in laboratory/clinical aspects of the program. If you have any questions or concerns regarding the criminal and child abuse background check, contact the Admissions Office.

All background checks must be completed by the start of classes. Students must adhere to the deadlines set by the Admissions Office and the faculty to file the background checks. All students must comply with this requirement. The student cannot attend class or clinical experience if this requirement is not
satisfied and may fail the course due to missed experiences if this requirement is not satisfied. OVH SON is required to give proof to the clinical agencies that students have passed the criminal and child abuse background checks.

**Criminal Clearance**

Criminal clearance will be completed on the web-based computer application called “Pennsylvania Access to Criminal History (PATCH)” at

https://epatch.state.pa.us/Home.jsp

The student is responsible for paying the required processing fee electronically.

**Child Abuse Clearance**

Child abuse clearance will be completed on the web-based computer application of the Pennsylvania Child Welfare Portal. The website is:

https://www.compass.state.pa.us/cwis/public/home

The student is responsible for paying the required processing fee electronically.

**FBI Fingerprinting**

Register BEFORE arriving at the designated fingerprint site. Register at

https://uenroll.identogo.com and enter service code number: 1KG756.

The student is responsible for paying the required processing fee electronically.

**PROCESSING OF CLEARANCES AND FINGERPRINTING MAY TAKE UP TO 6 WEEKS.** Please leave adequate time to ensure all clearances are completed by the designated deadline.

Once clearances and fingerprinting are completed, provide the Admissions Office at the School of Nursing with the original copies.

**FAILURE TO PROVIDE PROOF OF THESE CLEARANCES WILL RESULT IN THE STUDENT BEING UNABLE TO ATTEND CLINICAL EXPERIENCES, POTENTIALLY UNABLE TO FULFILL COURSE CLINICAL REQUIREMENTS, AND MAY RESULT IN PROGRAM DISMISSAL.**

Questions about this process should be directed to the School Admissions Officer at the School of Nursing.
C. ESSENTIAL FUNCTIONS OF A NURSING STUDENT

If a student signs acknowledgement of the Essential Functions of a Nursing Student Form, then they are responsible to notify OVHSON of any changes in physical or learning needs ability, so that reasonable accommodations can be made. See Accommodations Policy for additional details.

D. FERPA

Ohio Valley Hospital School of Nursing implements policy regarding student education records in compliance with Public Law 93-380, the Family Educational Rights and Privacy Act of 1974 (https://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html) - “FERPA” and the Buckley Amendment. These laws state that educational records of students attending or having attended the school are confidential and can be released to others only with written permission of the student or to other institutions to which the student has applied, certain state and federal educational and financial aid officials, certain accrediting and research groups who may have a legitimate need to review records, and to comply with a subpoena. No one else may view the student’s educational records unless the student specifies such parties on the Buckley Amendment Waiver at the time of admission. Students may review their records upon request. FERPA also authorizes the school to release “directory information” without prior written permission.

Annual Notification of Rights

Ohio Valley Hospital School of Nursing will provide students annual notification of their rights as defined by FERPA in the student guidebook and presented during orientation week.

Directory Information

Ohio Valley Hospital School of Nursing designates the following items as directory information, which may be disclosed without the student’s prior written consent, unless the student notifies the School of Nursing in writing by September 15th of each academic year:

- Name of student
- Student’s email address
- Certificate/Awards awarded
- Dates of attendance
- Scholarships received
- Membership or office in National Student Nurse Association
- Previous Schools attended
E. NOTICE OF NONDISCRIMINATION

It is the policy of the Ohio Valley Hospital School of Nursing not to discriminate in student selection for the educational program on the basis of age, race, color, creed, sex, national origin or disability.

VIII. GENERAL INFORMATION AND GUIDELINES

A. AFFILIATE COLLEGE/UNIVERSITY ADD/DROP

Affiliate university courses may be added or dropped per the policies of the affiliate university. Refer to the policy manual of the affiliate university.

B. BUILDING ENTRY

The main entrance to the School of Nursing is open from 5:30 a.m. until 5:30 p.m. Monday-Friday. The School of Nursing building is accessible after hours by scanning ID badges at the first floor entrance only or through the hospital security office located near the emergency room department. Security has the right to request to see student identification for access.

C. BULLETIN BOARDS

Student bulletin boards are available for student posting in the 4th floor student lounge and in the back of the SON Resource Center. Any information posted on the bulletin boards must be approved by the Director of the School of Nursing before posting.

Classroom announcements, volunteer opportunities and other information will be posted in the Announcements and Documents Google Classroom and/or the Resource Center bulletin board. It is the student’s responsibility to check these sites daily for announcements and general information updates as per the Communication Policy.

D. CHANGE IN PERSONAL INFORMATION

Change of name, home address, telephone number, or e-mail address must be reported to the school office as soon as possible.

E. CHAIN OF COMMAND

Any issues within the School of Nursing must be reported through the Chain of Command:

<table>
<thead>
<tr>
<th>Course/ Curriculum/ Program Issues</th>
<th>Student Issues</th>
<th>Faculty Issue</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual Faculty Member</td>
<td>Student</td>
<td>Faculty Member</td>
</tr>
<tr>
<td>Student Representative</td>
<td>Course Chair</td>
<td></td>
</tr>
<tr>
<td>Curriculum/ Simulation Coordinator</td>
<td>Director</td>
<td>Director</td>
</tr>
</tbody>
</table>

Reviewed/Revised 6/2019
F. CHANNELS FOR RESOLVING ISSUES

A complaint about the curriculum or a student policy, individuals, or a faculty member should be addressed as defined in the chain of command above. If a satisfactory resolution is not obtained through the chain, then an appointment to discuss the issue with the Director should be made. If a resolution to the complaint is not obtained at this level, the student will then be advised of the grievance process.

G. EMPLOYMENT

- A student may seek employment on his/her own time, but is advised to consider the physical and psychological demands of the nursing program before accepting employment. **A student’s work hours must not conflict with class (8am-4pm) or clinical (generally 7am-3pm) experience.**

- The School of Nursing assumes no responsibility for student employment and actions while employed.

- A student **IS NOT PERMITTED** to wear the Ohio Valley Hospital School of Nursing student uniform during work hours.

- **Excessive hours of employment may negatively impact academic success.**

H. EXAMSOFT

- ExamSoft/Examplify offers students a test taking environment that is similar to the computerized testing environment of the NCLEX Exam.

- Students will primarily take exams through the ExamSoft Examplify application.

- Students will be provided with an individual User ID and password for Examplify.

- Students are only permitted to log in with their unique User ID. If a student logs in with any other User ID other than their own, disciplinary action will be taken in accordance with the Student Misconduct Policy.

- Students will use the school supplied laptops to take scheduled exams.

- During an exam, Examplify restricts the use of other applications when testing.

- Exam Soft has parameters and tools such as the ability to go back to a question, immediate exam review, calculator, highlighter, etc. The ability to use these tools will be defined and maintained in each course. The inclusion and exclusion of these tools is for the purpose to assist the student to adjust to computerized testing environment.
• Any issues should be reported to the instructor and/or academic IT coordinator immediately.

Examsoft Disputes

Examsoft monitors and records all actions taken when testing in Examplify. Therefore, it is extremely unlikely that an answer will be submitted that the student did not choose. Care should be taken when selecting answers in Examplify. If the student believes there was a computer error in answer choice selection, please notify the instructor and the Academic IT coordinator, and the issue will be investigated. The Director, School of Nursing will render a final decision after consulting with the Academic IT coordinator.

I. GRADUATION AWARDS

1. The Medical Staff Award is given to a member of the graduating class with the highest QPA.

2. The Board of Directors Award is presented to the graduate who is identified by faculty members as having the personal and professional qualifications to achieve well in any nursing endeavor. The awardee maintained a high academic status and demonstrated outstanding clinical performance and personal and professional growth by consistently meeting the following criteria:

   • Demonstrates an interest and enthusiasm for learning.
   • Provides for the promotion, maintenance, and restoration of health for all clients.
   • Utilizes management skills including collaboration, coordination and communication with patients, families and the healthcare team.
   • Begins to assume a leadership role within the health care system.
   • Teaches individuals, families and groups based on identified health needs.
   • Functions as an advocate for the consumer and the health care system in order to improve the quality and delivery of care.
   • Practices nursing based on a theoretical body of knowledge, ethical principles and legal standards.
   • Evaluates nursing practice for improvement of nursing care.
   • Accepts personal responsibility and accountability for professional practice.
   • Utilizes opportunities for continued personal and professional development.
   • Demonstrates a commitment to community service and excellence in health care.
   • Utilizes critical thinking in professional practice.
   • Functions in a consistent caring and empathetic manner.
   • Demonstrates commitment to excellent health care.

3. The Frank Fairbanks Award is presented to a graduate who is identified by faculty members as having provided outstanding service to the community, and demonstrating the following characteristics:
• Volunteers to assist with health screening efforts in the community.
• Participates in school and hospital-sponsored activities in the community.
• Demonstrates a high degree of enthusiasm and motivation throughout the program.
• Displays strong assessment ability and early development of critical thinking and clinical judgment.
• Represents the Ohio Valley Hospital and the School of Nursing to the community in a professional manner.
• Demonstrates positive guest relations skills.

4. The Ronita DiClemente Nursing Award is a donor restricted award for the benefit of Ohio Valley Hospital School of Nursing Students. This award is presented to a graduate who is identified by the faculty members who consistently:
   • Demonstrates strong academic performance.
   • Demonstrates a high degree of enthusiasm and motivation throughout the program.
   • Displays strong assessment ability and early development of critical thinking and clinical judgment.
   • Represents Ohio Valley Hospital and the School of Nursing to the community in a professional manner.
   • Demonstrates positive guest relations skills.

5. The Anthony F. Lisanti Memorial Award is presented to a graduate who is identified by the faculty members who consistently:
   • Achieves academic excellence.
   • Exhibits compassion and kindness.
   • Displays a high degree of enthusiasm and motivation throughout the program.
   • Demonstrates a strong commitment to nursing and critical thinking.
   • Represents Ohio Valley Hospital and the School of Nursing to the community in a professional manner.

J. HOLIDAYS

The student is exempt from class and clinical experience on:

- New Year’s Day
- Memorial Day
- Christmas Day
- Labor Day
- Thanksgiving
- Independence Day

Note: Exemption from class and clinical will be given individual consideration by the Director related to cultural, spiritual, and ethnic practices.
K. LIABILITY INSURANCE

Each student is covered by a liability insurance policy during enrollment in the School of Nursing. Coverage is effective during student required experiences and activities.

L. LOCKERS

Lockers are provided for the convenience of the students but they remain the property of Ohio Valley Hospital School of Nursing. Accordingly, any agent or representative of Ohio Valley Hospital School of Nursing or Ohio Valley Hospital can inspect them, as well as any articles found within them, at any time, either with or without prior notice. OVH SON is not responsible to replace any lock broken for the purpose of inspection.

Each student is requested to store textbooks and personal belongings in assigned lockers. It is suggested that combination locks purchased by the student be used for security. The school and hospital are not responsible for any missing articles. Upon withdrawal or graduation from OVH SON, locker must be cleaned and lock removed.

M. MEALS

Students will be given an hour for lunch during class days.

- Meals or lunches may be purchased in the hospital cafeteria or snack shop. Cafeteria seating is available to all.
- Within the SON meals may be eaten only in the student lounge 4th floor
- Snacks only are permitted in the classroom and the designated area in the Resource Center. Failure to dispose of all remnants of your snack may result in loss of privilege to all
- Lunches requiring refrigeration may be placed in the designated refrigerator in the student lounge.

On clinical days, lunch and break will be scheduled at the discretion of the instructor and based on clinical responsibilities of the student.

N. PARKING

Student parking is available only in the Willow Lane parking lot, Heckel Road.

- To be eligible to park in this lot, a red placard must be hung on the rear-view mirror of each vehicle the student drives.
- The placard is provided by the hospital at no charge to the student. In the event of changing automobiles, the student must contact the school office in order to obtain a placard, prior to parking on campus.
- Any student who is also an employee must obtain a placard from the Security Department of the hospital in order to park in employee parking during their scheduled work hours. When attending class or clinical, students must park in the student parking lot (i.e., Willow Lane lot) only, except as indicated in #5 below.
• No student is permitted to park in visitor parking (patient parking), Emergency parking, employee lot, or the “S” lot/physician lot.
• Failure to park in the designated student parking lot will result in institution of the Student Misconduct Policy.
• A student with two (2) parking violations will no longer be permitted to park on hospital property and the vehicle may be towed away at the offender's expense.
• During the Leadership course clinical, senior nursing students may park in the employee parking lot or the “S” lot/physician lot when working 3pm-11pm or 11pm-7am only.
• Any student who parks in handicap zones must have a placard registered in THEIR NAME. Handicap parking spaces are located behind the Medical Office Building.

O. SAFETY

a. CAMPUS CRIME AND SECURITY POLICIES

Campus Security
• Students are encouraged to act in a safe manner and be responsible for their own security.
• The School of Nursing provides lockers to students. Security (locks) of the lockers are the student’s responsibility.
• Hospital grounds are under 24/7 continuous camera surveillance.
• Hospital property is patrolled 24/7 by security personnel.
• Appropriate escort service by security personnel is available upon request.
• Hospital security officials report directly to the Hospital Senior Vice-President.
• The Hospital Senior Vice-President reports to local law enforcement officials.
• Students are encouraged to practice crime prevention.

b. FIRE SAFETY

Students are oriented to the OVH Fire Safety Program annually via Health Stream training. OVH training teaches the RACE acronym to help remember the steps for what to do in a fire emergency. These steps are summarized here:
R – Rescue – Remove anyone from immediate danger posed by the fire if safe to do so.
A – Alarm – Pull the fire alarm. Notify faculty, staff, or security of the location of the fire. The emergency number, 111, can be used to report the fire.
C – Contain – Ensure fire doors are closed to help prevent the spread of the fire.
E – Extinguish – If safe to do so, an attempt can be made to extinguish the fire. This should be attempted only if there is knowledge of the source of the fire, whether there is a compatible fire extinguisher available, and there is knowledge of how to operate the extinguisher.

Fire extinguisher operation is covered during the Fire Safety Program training.
c. REPORTING CRIMINAL ACTIONS AND/OR EMERGENCIES

Students who identify a criminal action and/or emergency should notify the Ohio Valley Hospital Safety and Security Department immediately. The Hospital Security Department will investigate and report the incident to determine the course of action to be taken.

All police reports are forwarded to the Director, School of Nursing, who will follow up jointly with the Chief of the Safety and Security Department.

d. SAFETY AND SECURITY

The Ohio Valley Hospital School of Nursing has policies and procedures to ensure the safety and security of students and employees. The Hospital Security Department is located on the first floor of the hospital, and is responsible for the safety and security of the buildings and grounds of the Ohio Valley Hospital.

Statistical reports are maintained in accordance with the Crime Awareness and Campus Security Act of 1990. While attending classes at the School of Nursing, students are subject to the security policies of the hospital. Security policies, procedures, and reports of the School of Nursing may be reviewed at any time by submitting a request to the Director, School of Nursing.

P. SEXUAL HARASSMENT

It is the policy of the Ohio Valley Hospital School of Nursing to provide an educational environment free from any form of sexual harassment.

Sexual harassment shall be defined as:
- Unwelcome sexual advances
- Requests for sexual favors
- Other verbal or physical conduct of a sexual nature

These types of activities will not be tolerated by any individual, including, but not limited to the following: Ohio Valley Hospital School of Nursing faculty and staff, affiliated college faculty, Ohio Valley Hospital healthcare workplace employees, affiliated healthcare workplace employees, student peers, volunteers, visitors or patients.

Should any student have a complaint related to this policy, they should contact the Director of the School of Nursing immediately. Fact-finding and documentation activities will commence immediately so as to resolve the complaint as soon as possible. All complaints will be handled in a confidential manner and no retaliation will be sought by any member of Ohio Valley Hospital School of Nursing faculty and staff, affiliated college faculty, Ohio Valley Hospital healthcare workplace employees, affiliated healthcare workplace employees, student peers, volunteers.
Q. SMOKING

In order to protect the health and safety of students, patients, visitors, employees, physicians and others, Ohio Valley Hospital School of Nursing maintains a smoke and tobacco-free environment as outlined below:

- Smoking, including the use of e-cigarettes, vaping and tobacco products, by students is prohibited anywhere within the School, Hospital or on the OVH campus, including the W. Laird Davis Center of Learning, Facilities Management Building, Wound Care Centers, Pain Treatment Center, Medical Office Building, offices of physicians employed by the Hospital, The Willows and vehicles owned by the Hospital.
- Students in violation of this policy shall be subject to disciplinary action.
- The sale of smoking materials and tobacco is prohibited in any OVH or OVHSON facility.
- Violations of the smoking policy can be reported anonymously through the Hospital’s Compliance Hotline at 1-800-826-6762.

R. SNAP POLICY

The Student Nurses Association of Pennsylvania (SNAP) is a statewide organization for student nurses associated with the National Student Nurse Association. The purpose of SNAP is to acquaint students with the professional, civic, and legislative responsibilities. Through SNAP, students become acquainted with the functions and accomplishments of the graduate nurse professional organizations. Ohio Valley Hospital School of Nursing (OVH SON) maintains a chapter of SNAP. As members, students participate in various events, including the annual statewide convention. Participation in SNAP activities gives students the chance to interact with student nurses from other nursing programs.

Goals
The goals of SNAP are to introduce OVH SON students to a professional organization and promote leadership. SNAP members:

- Participate in educational meetings.
- Organize charitable events.
- Attend conferences with student nurses across Pennsylvania.

Guidelines for Membership in SNAP

Membership in SNAP is MANDATORY and dues are non-refundable. Students will be enrolled as a member during their first semester and will renew their membership annually. The cost for a New Member is $40 and Renewal is $45.

Benefits

Members benefit from leadership opportunities, exam preparation courses, scholarships, career information, publication discounts, legislative representation and a quarterly association newsletter. Benefits for members are listed on the website: www.nsna.org.
Meetings
School chapter meetings are held monthly and as needed.

Election of Officers
Students will nominate members to serve as officers-elect (President, Vice President, Secretary, and Treasurer) for each new cohort entering the program during the first SNAP meeting. Elections are held in accordance to the procedures established by the OVH SON chapter.

- **Nominations:** A nomination is the act of choosing a candidate for an election. All nominations are completed before any balloting (voting) takes place. Class Officers are not permitted to run for SNAP offices.

- **Voting:** Voting for all offices is done by a single ballot method of voting for each new cohort. An officer-elect takes possession of their office immediately upon their election becoming final.

Duties of the Officers

A. President
1. Preside at all chapter meetings, appoint committees as needed, and perform all other duties pertaining to the office, as directed by faculty advisors.
2. Keep informed of all current and proposed resolutions at the state and national levels and report information to chapter membership.
3. Organize all fundraising and community service events.

B. Vice President
1. Assume responsibility of the office of President in the event a vacancy occurs until the next regular election.
2. Preside at meetings in the absence of the President.
3. Assist the President as needed.

C. Secretary
1. Record, distribute, and submit to Faculty Advisors the minutes of all meetings, according to Robert's Rules of Order Newly Revised using the Agenda and Meeting Minute Template supplied.
2. Keep on file as a permanent record all reports, papers and documents.
3. Assist the President with state or national correspondence.
4. Deliver all chapter papers to the newly-elected Secretary.

D. Treasurer
1. Submit financial reports to the Faculty Advisors and membership as directed.
2. Keep a permanent record of all dues received from members and any other income and disbursements.

E. Senior officers
1. Mentor all freshman officer-elect positions during senior academic year.
Faculty Advisors
Two (2) members of the faculty are appointed to act as the consultants to the OVH SON chapter of SNAP. The role of the Faculty Advisor is varied and dependent upon the needs and resources of the OVH SON chapter. The Faculty Advisors:

- Provide guidance to students in carrying out their organizational functions.
- Assist in providing direction and assistance in operational aspects as necessary (i.e., financial planning, record keeping, parliamentary procedure).
- Identify potential resources and expertise needed for the chapter in decision-making and program planning.
- Foster problem-solving, objective analysis, and goal-centered planning in the pursuit of the objectives and activities of the local chapter.
- Serve as a resource person in planning, deliberations, implementation, and evaluation of chapter activities.
- Stimulate and encourage personal and professional growth in skill development of officers and other members of the local chapter.
- Foster closer relationships and serve as a communication link and interpreter on the responsibilities, policies, and goals of the local chapter, the Student Nurses' Association of Pennsylvania, the National Student Nurses' Association, and other community and professional organizations.
- Maintain communications with other faculty to provide support in student activities and programs.

SNAP Conference Eligibility
Students wishing to attend SNAP related conferences are only eligible to be excused from theory and clinical attendance if they meet the following criteria:

1. Theory:
   - Have a grade of “C” (80%) or better in theory.
   - Provide SNAP Faculty Advisor with written confirmation from the Course Chair that the above academic requirement has been satisfied.
   - The student is responsible for obtaining missed theory content.
   - Theory hours missed will be excused and not considered in the total percentage permitted to be absent. Content is the responsibility of the student to obtain from peers or the instructor.
   - If the conference falls on a test day, the student is responsible for taking the exam prior to the conference or other arrangements may be made at the discretion of the SNAP Advisor and Director, SON.

2. Clinical:
   - Currently passing clinical with a 2 or an average of 2.0 in each clinical outcome.
   - Clinical time missed (direct or indirect) will not be considered in the total percentage permitted to be absent. Experiences MAY require clinical (not necessarily direct clinical) make up depending on the experience, at the discretion of the Course Chair and Director, SON.
3. Misconduct:
   - Students must not have acquired any Misconduct Warnings in the current semester or have a “Non-expiring Misconduct Warning”. Exceptions may be made by the SNAP Advisors. Final approval is at the discretion of the Director, School of Nursing.

Upon return from conference activity, the student must present to the school information about one of the sessions attended during the conference as directed by the SNAP faculty advisor (i.e. a power point presentation, verbal recount, or poster).

**Conference Application Guidelines**

SNAP Guidelines for Application to National and State (NSNA and SNAP) Conference:

- **Attendance:** The student(s) applying for attendance at conferences (national and local), must meet the following guidelines in order to apply:
  - Attendance at a minimum of three (3) SNAP meetings during the past six (6) months (excluding the first conference in the fall).
  - Participation in minimum of two (2) SNAP sponsored activities/events during the past six (6) months (excluding the first conference in the fall).
  - Attendees at the NSNA or SNAP conference to include:
    a. SNAP officers
    b. Member(s) in good standing in the chapter

- Final determination will be made by SNAP Faculty Advisor(s) and Director, School of Nursing.

**Delegate Representation**

School constituents:

1. The chapter, when recognized as an official NSNA constituent, will be entitled to one voting delegate and alternate at the NSNA House of Delegates, and in addition, shall be entitled to one voting delegate and alternate for every 50 members.

2. The chapter delegate(s) and alternate will be a member(s) in good standing in the chapter and will be selected and/or elected by members of the school chapter.

**Professional Conduct at SNAP related functions**

OVH SON chapter members are representatives of OVH SON and are expected to conduct themselves in a professional and courteous manner, showing respect to others at all times. The conduct of our chapter members at professional functions, such as conventions, chapter meetings, and related activities and events, will reflect on the public’s opinion of the nursing profession. Members are expected to arrive on time to meetings, events and programs and to attend the entire function. Professional business attire or business casual is the acceptable dress for most functions. Participation in the conference is school related and supported, therefore all activity during and after the conference including any related events should be conducted in a mature, professional, and adult manner. Any inappropriate behaviors will result in disciplinary action upon returning.
IX. Student Services

STUDENT SERVICES INCLUDES: HEALTH, COUNSELING, ACADEMIC ADVISEMENT, LIBRARY SERVICES AND FINANCIAL AID.

A. ADVISEMENT PROGRAM

Purpose
The purpose of the advisement program is to provide academic and professional guidance to the student.

Objectives
- To assist the student to establish realistic academic and professional goals.
- To assist the student to identify individual strengths and areas for growth.
- To support the student in adjusting to the demands of the nursing program.
- To assist students to problem solve academic and professional problems.
- To assist students with career placement.

Scope
- Following acceptance into the program, the student is assigned a faculty advisor. The faculty advisor may be reassigned at the start of each course.
- The student is free to request another academic advisor at any time.
- Documentation of an advisement session is made by the advisor.
  a. For each advisement session, the record indicates date, time, general nature of problem (academic, professional, etc.), and resolution.
  b. Advisement records will be kept in a secure electronic file.

B. DISABILITIES

The OVH SON will comply with Section 504 of the Rehabilitation Act of 1973 (http://www.dol.gov/ossam/regs/statutes/section504.htm) and Section 202 of the Americans with Disabilities Act of 1990 (http://www.dol.gov/ossam/regs/statutes/ada_1ia.htm) in order to provide reasonable accommodations for students.

Reasonable accommodations are based on the nature and extent of the student’s disability. The School of Nursing requires specific documentation from the appropriate medical clinician that supports the students’ request for academic adjustment and auxiliary aids. Documentation can be provided using the Request for Accommodations Form.

Reasonable accommodations under this policy may include, but are not limited to:
- requests for academic adjustments, such as modification of academic requirements and flexibility in test-taking arrangements
- adjustments in nonacademic services and other rules
- auxiliary aids and services
OVH SON will make modifications to academic requirements:

- necessary to ensure that those requirements do not discriminate, or have the effect of discriminating, against a qualified student with a disability based on that disability
- which do not impose undue financial and administrative burden on the school or require fundamental alteration of a service, program or activity.

A student who seeks reasonable accommodation based upon a disability is responsible for documenting the nature and extent of the disability. The student may request specific accommodations; however, the final determination of the appropriate accommodations rests with the SON. To ensure that needed accommodations are provided in a timely manner, the student shall:

- Use the Request for Accommodations Form.
- Request accommodations prior to the beginning of the semester. Accommodations are valid for a 12 month period.
- Provide complete, thorough documentation to the Director, School of Nursing.
- Failure to submit appropriate documentation may delay the availability of an accommodation. Any scored performance or theory exams completed prior to the acceptance of an appropriately documented accommodation and initiation of said accommodation will stand.

- Provide such additional documentation on the nature and extent of their disability as the SON may require to determine appropriate accommodations, including current information from a physician specific to the functional limitations and their severity within an academic setting.
- Promptly notify the Director, School of Nursing of any problems in receiving the identified accommodations.

The SON will:

- review and determine appropriate accommodations within seven (7) days of receipt of completed Request for Accommodation Form.
- Work collaboratively with eligible students to determine what accommodations are reasonable and appropriate. In determining what type of auxiliary aid and service is necessary, the SON will give primary consideration to the eligible student’s request; however, the final determination of the appropriate accommodations rests with the Director, School of Nursing.
- Work with the student, faculty, and staff on a case-by-case basis, to determine and provide those accommodations and/or core services appropriate for each qualified student with a disability.
- Keep information confidential regarding the nature of the student’s disability.
- Note – it is not feasible to accommodate complete privacy for exams for each student requiring such accommodations. Any student requiring accommodations is aware, by this policy, that up to four students requiring privacy may test together.
C. HEALTH PROGRAM

The Student Health Program operates within a collaborative relationship with the Emergency Department of the Ohio Valley Hospital and the Coordinator of Student Health (Employee Health Nurse). The Student Health Program is governed by written policies and objectives, and functions in keeping with the philosophy and outcomes of the School of Nursing.

**Purpose**
The purpose of the Student Health Program is to assist in the promotion, maintenance and restoration of the physical and mental health of the nursing student.

**Objectives**
- Compile and maintain health records of the student.
- Protect the student from certain communicable diseases by requiring immunizations and annual testing.
- Provide the student access to health care services as needed.

**Policies**
- Each student must provide proof of health insurance upon acceptance into OVH SON. This is a requirement of the clinical sites utilized by the school. Each student will be held responsible for their own personal health policy issues.
- A cumulative health record is maintained throughout the enrollment of each student. The Coordinator of Student Health maintains student health records. Confidentiality is maintained and the records are disposed of five (5) years after the student's graduation or withdrawal.
- The Coordinator of Student Health reviews all health records of incoming students for abnormalities and notifies the student of unusual findings that require follow-up.
- Annual tuberculin test is required. A positive tuberculin test must be followed by a full size chest x-ray, if the previous tuberculin test was negative. A chest x-ray does **NOT** need to be obtained yearly if the student has a remote history of a positive tuberculin test.
- Annual flu vaccines will be provided by the school as soon as they become available. Flu vaccines are a requirement of clinical agencies. If a student does not receive the vaccination, the student may not be able to participate in the clinical component of the course resulting in the student being unable to meet the outcomes for the course.

Students Returning to School
- Students absent for three (3) or more consecutive clinical/theory days must obtain a written physician’s permission to return to school.
- A student who returns from a leave of absence must meet all the health requirements and be cleared for return by the Coordinator of Student Health.
- When indicated, a student will be referred to the Emergency Department or to the student's private physician.

D. RESOURCE CENTER

The Resource Center is available for student use 24 hours a day, 7 days a week.
• 12 computers will be equipped with access to Google Classroom, EBSCO Nursing Reference Center, and affiliated university library resources.
• Textbooks: A copy of current required texts and other resources are available in the Reference Room of the Resource Center. **Textbooks are for Resource Center use only and are NOT TO BE REMOVED under any circumstances.** Theft of library materials is cause for immediate dismissal from the program.
• A photocopier/printer is available for student use in the Resource Center. All photocopying will be done in compliance with Copyright Law. A notice concerning restrictions and violations of this law is posted next to the copier. Students must supply their own paper.
• **Absolutely no food or drinks permitted within the computer area.**
• The Resource Center is provided for all student use. Each student is responsible to maintain the cleanliness of the environment for the enjoyment of all

E. STUDENT RECORDS

The following is a list of the types, locations, and custodians of education records the School of Nursing maintains. The length of time the records are kept is indicated in parentheses. Requests for specific education records should be sent to the Director, School of Nursing at 25 Heckel Road, McKees Rocks, PA 15136.

X. Financial Aid

The School of Nursing participates in federal and state financial aid programs. To receive financial assistance through the Student Financial Aid Program at Ohio Valley Hospital School of Nursing, you must:

- Have a financial need, excluding some loan programs;
- Have a high school or General Education Development (GED) certificate;
- Be enrolled or accepted for enrollment in an eligible program of study toward a degree or certificate;
- Be a U.S. citizen or eligible non-citizen
- Have a valid Social Security Number
- Make Satisfactory Academic Progress (SAP)
- Complete a FAFSA and use funds for educational purposes
- Certify that you have not defaulted on federal student loans and that you are not required to repay any federal grant funds
- Register with selective service, if required

A. ACADEMIC YEAR

OVH School of Nursing defines its academic year as 24 semester credits and 30 weeks.

B. AID PROGRAMS AVAILABLE

The two forms of student financial assistance are:

- Gift aid in the form of grants and scholarships, which does not require repayment
- Federal Direct Educational Loans, which require repayment

*Note: If a parent(s) is deemed ineligible to borrow funds under the PLUS Loan program, the student may request to borrow additional Direct Loan funds. These additional loans are always Unsubsidized and can total up to $6,000 for first and second year students.

i. FEDERAL DIRECT LOANS

Federal Direct Loans are borrowed in the student’s name and can be either Subsidized or Unsubsidized. The principal payment is not required provided the student is enrolled at minimum half-time status. The student is given a six-month grace period after graduation (or withdrawal/dismissal from program) before repayment begins.

A student must demonstrate financial need to qualify for a Subsidized Federal Direct Loan. No interest accrues on a Subsidized Loan provided the student is enrolled at a minimum of half-time status.
A student with no demonstrated financial need can borrow an Unsubsidized Federal Direct Loan. Interest accrues on an Unsubsidized loan. The student has the option of paying the interest or allowing the interest to accrue while still enrolled at a minimum of half-time status. Principal is repaid six months after graduation (or withdrawal/dismissal) from program.

2017/18 - Federal Student Loan Interest Rate for loans disbursed from 10/1/2017 through 9/30/2018

Federal Direct Stafford Loans: 1.066%
Federal Direct PLUS Loans: 4.264%

2018/19 - Federal Student Loan Interest Rate for loans disbursed from 10/1/2018- 9/30/2019

Federal Direct Stafford Loans: 1.062%
Federal Direct PLUS Loans: 4.248%

The maximum annual and lifetime amounts a student can borrow through the Federal Direct Loan program is determined by a student’s grade level and or program of study.

</tbody>
</table>

All students that complete a Free Application for Federal Student Aid (FAFSA) will be reviewed for Stafford Loan eligibility. Students who meet the following conditions may qualify for a Stafford Loan:
- Must be fully admitted into OVH School of Nursing
- Must be at least half-time enrollment
- Must not be in default on any federal loans
- Must not have borrowed the annual and/or lifetime maximum loan amounts
- Must make Federal Aid Satisfactory Academic Progress

Students will be notified of their loan eligibility on their annual Financial Aid Award Letter. If you are a first time borrower at OVH School of Nursing, you must complete a Master Promissory Note (MPN) and an entrance counseling session before the loan(s) can be applied to the account. The Financial Aid Office will notify the student when it is time to complete these important steps.
The loan information is reported to the National Student Loan Data System (NSLDS). NSLDS is the U.S. Department of Education’s central database for student aid. NSLDS receives data from schools, guaranty agencies, the Direct Loan program and other Department of Education programs. This data can be viewed by guaranty agencies, lenders and other authorized users of this data system. In addition, the student may access NSLDS to view your Title IV loan and grant history.

A returning student must also complete an MPN. Ohio Valley Hospital School of Nursing requires annual submission of this document. All students need to file the FAFSA or Renewal FAFSA each academic year to borrow a Federal Direct Loan. The loan will be created in the amount listed on the Financial Aid Award Letter, unless the student indicates a desire to reduce or decline the loan amount.

To complete an MPN, directions are as follows:

1. Visit www.studentloans.gov
2. Click on the “Sign in” button under “Manage My Direct Loan”
3. Sign in with the requested information, including your Federal Student Aid PIN number
4. Choose the “Complete Master Promissory Note” link
5. Complete your MPN for the loan type that you need (Subsidized/Unsubsidized/ Parent PLUS)

**ii. FEDERAL DIRECT PLUS LOAN**

Federal Direct PLUS Loans are funds that may be borrowed by creditworthy parent(s)* for a dependent undergraduate student. The student may be enrolled on at least a half-time basis and be in good academic standing according to the Federal Financial Aid Satisfactory Academic Progress Policy at the time of application. Parent(s) can borrow up to the cost of the student’s education. The interest rate is fixed at 6.31% and an origination fee of 2.5% is deducted by the lender from the actual amount of the loan. Repayment begins 60 days after the loan is fully disbursed to the student’s account. Parents can apply at the following website (www.studentloans.gov).

After completing the Master Promissory Note (MPN) for the first PLUS Loan, a new promissory note will be required each academic year. The parent(s) must also initiate a new credit approval and request an updated loan amount each academic year.

The School of Nursing participates in several federal and state financial aid programs as well as offering institutional aid.

**iii. FEDERAL PELL GRANT**

- is based upon financial need, and awarded thru the Federal Government. The grant amounts range from $593-$5,920 for the current academic year. Students apply by completing the FAFSA.
Students may qualify for a Federal Pell Grant regardless of the number of credits for which they are enrolled.

**Pennsylvania Higher Education Assistance Agency, PA State Grant:**
This program allows eligible Pennsylvania residents to obtain financial assistance for undergraduate studies at any PHEAA-approved institution of higher education. The FAFSA (Free Application for Federal Student Aid) serves as the program’s application and must be received by May 1st annually. Eligibility requirements include:

- Be a resident of Pennsylvania (domiciliary) for at least 12 months
- Meet criteria for financial need
- Be enrolled at least part-time (6-8 credits)
- Be a high school graduate or recipient of a GED
- Demonstrate academic progress (for continued aid)

State grant awards are dependent upon financial need and are determined by family size, financial resources, educational cost and your EFC (expected family contribution). As with Pell grant awards; state grants are awarded a maximum of one (1) academic year (July 1- June 30). Eligibility is subject to annual review and may change yearly.

Distance education will be incorporated into the PA State Grant Program. Due to limited resources, students enrolled in more than 50% distance education credits may receive a reduced award.

iv. **OTHER FUNDING SOURCES**

1. **Ohio Instructional Grant (OIG)**

Gift assistance based upon financial need and awarded through the Ohio state government. The OIG Grant is available to qualifying permanent residents of the state of Ohio. Award amounts are established by the state legislature. Students apply by completing the FAFSA. In order to qualify for the OIG Grant, the student must be enrolled at least half-time (6 credits).

2. **OVH Full Tuition Scholarship**

The School of Nursing offers institutional scholarships from the OVH Board of Directors and Administrative team and federal and state grant programs to support the cost of tuition for students. Eligibility is limited to US citizens or eligible non-citizens and is generally based on pre-entrance exam scores and academic merit. The Full Tuition Scholarship requires a three (3) year work commitment at Ohio Valley Hospital following graduation. If the work commitment is not fulfilled, institution scholarships must be repaid. Scholarship recipients must complete 50 mandated volunteer hours while in attendance in the program.

v. **PHEAA GRANT**
The Pennsylvania Higher Education Assistance Agency (PHEAA) requires that both full and part-time grant recipients make academic progress. If a student does not meet the academic progress required, he or she will not be eligible to receive a PA state grant for the next academic term of enrollment.

- For each full-time PA grant received, a student must complete 12 credits per semester/24 credits per academic year with a minimum grade of “C” or better with no repeat course(s).

- For each part-time PA grant received, a student must complete six credits per semester/12 credits per academic year with a minimum grade of “C” or better with no repeat course(s).

If a student received a full-time grant for one semester and a part-time grant for another, the requirement would be 18 completed credits with a minimum grade of “C” (2.0) or greater with no repeat course(s). A student who loses the PA grant due to lack of academic progress can regain eligibility only by achieving the number of credits deficient for progress with a “C” (2.0) or greater during the next semester of enrollment. Academic progress is monitored on a semester basis.

vi. TRADE ADJUSTMENT ASSISTANCE

Federal assistance is offered to workers, firms, and farmers adversely affected by foreign trade. OVH SON participates in the Trade Adjustment Assistance for Workers (TAA), administered by the U.S. Department of Labor, which aids displaced workers. Please contact the Financial Aid Officer for details.

C. APPLYING FOR FINANCIAL AID

Steps To Apply For Financial Aid Assistance

The School of Nursing will assist the student and his/her family in every way possible. In order to be awarded financial aid, students must be officially accepted into Ohio Valley Hospital School of Nursing and the affiliate college. Following are the steps required to apply for financial aid assistance:

1. STEP ONE–
   Request your FSA ID (https://fsaid.ed.gov/npas/index.htm)

   If you are a dependent student, one of your parents must also request a FSA ID. Print and save your FSA ID in a safe place because you are required to use it again for other applications each academic year which you apply for financial aid.

2. STEP TWO-
   Enter your completed FAFSA information, using OVH School of Nursing’s school code of 00656000 online at www.fafsa.ed.gov.

3. STEP THREE-
Use the IRS Data Retrieval Tool to transfer your tax information and your parent’s (if applicable) information to your FAFSA.

4. **STEP FOUR-**
   Sign your FAFSA using your FSA ID and your parent’s FSA ID as electronic signatures.

5. **STEP FIVE-**
   Keep a copy of your completed FAFSA. Print a copy of your Student Aid Report, with the confirmation number, and keep for your records.

**STUDENTS are required to file their FAFSA once per academic year (July 1- June 30th).**

D. **AWARDS**

i. **DETERMINATION OF AWARDS**

Most aid dollars are awarded on the basis of a congressional formula, called “need analysis”, which measures each family’s ability to pay educational expenses. The formula takes into account factors such as family income and assets, family size, non-discretionary family expenses, retirement needs, student earnings and savings, and the number of household members in college. The U.S. Congress, not the School of Nursing, establishes the formulas used for measuring a family’s ability to contribute to educational expenses. Only Congress can make changes to the formula.

A student’s eligibility for financial aid is generally based on financial need. Financial need is defined as the difference between the student’s Cost of Attendance (COA) budget and the Expected Family Contribution (EFC), as calculated using the Congressional formulas.

ii. **NOTIFICATIONS**

Financial aid award (explaining eligibility and amounts) notices will be mailed to all students.

1. **Award Conditions and Responsibilities:** Be sure to read the materials accompanying your award letter for conditions attached to your award. If awarded federal loan assistance, a promissory note must be signed and returned before funds will be disbursed.

2. **Entrance Loan Counseling:** Prior to receiving your first disbursement of Federal Direct Loan funds, you will be required to complete an entrance loan counseling session. Federal Direct Loan Entrance counseling is provided online at [www.studentloans.gov](http://www.studentloans.gov).

3. **Complete your Direct Loan MPN:** If you are awarded a Federal Direct Loan, your eligibility will be certified electronically. You must follow the steps provided via the US Department of Education’s web page at [www.studentloans.gov](http://www.studentloans.gov) and complete your master promissory note. You will receive an official loan disclosure from the US Department of Education once your loan has been approved and certified.
4. **Financial Aid Disbursement**: Financial aid is awarded by the Office of Student Aid, but is disbursed thru the hospital accounting department. Financial awards made for the academic year will be disbursed each semester, assuming you are registered for the number of credits on which your financial award was based. If your award package includes Federal Direct Loan funds, the aid will be disbursed to your student account with confirmation of completion of both Direct Loan Entrance Counseling and submission of a completed Electronic MPN.

E. **CODE OF CONDUCT FOR FINANCIAL AID**

OVH School of Nursing Student Financial Aid is committed to the highest standards of professional conduct. All financial aid staff are members of the National Association of Student Financial Aid Administrators (NASFAA) and adhere to the ethical principles and the institutional code of conduct.

**NASFAA Statement of Ethical Principles:**

NASFAA’s *Statement of Ethical Principles* provides that the primary goal of the institutional aid professional is to help students achieve their educational potential by providing appropriate financial resources. To this end, this *Statement* provides that the financial aid professional shall:

- Be committed to removing financial barriers for those who wish to pursue postsecondary learning.
- Ensure equity by applying all “need analysis” formulas consistently across the institution’s full population of student financial aid applications.
- Provide services that do not discriminate on the basis of race, gender, ethnicity, sexual orientation, religion, disability, age or economic status.
- Recognize the need for professional development and continuing education opportunities.
- Promote the free expression of ideas and opinions, and foster respect for diverse viewpoints within the profession.
- Commit to the highest level of ethical behavior and refrain from conflict of interest or the perception thereof.
- Maintain the highest level of professionalism, reflecting a commitment to the goals of the National Association of Student Financial Aid Administrators.

**Ohio Valley Hospital School of Nursing Code of Conduct:**

Our financial aid professional is expected to always maintain exemplary standards of professional conduct in all aspects of carrying out responsibilities, specifically including all interactions with all entities involved in any manner of student financial aid. In doing so, the financial aid professional should:
• Refrain from taking any action for his or her benefit.

• Refrain from taking any action he or she believes is contrary to law, regulation, or the best interests of the student and parents, he or she serves.

• Ensure the information he or she provides is accurate, unbiased, and does not reflect any preference arising from actual or potential personal gain.

• Be objective in making decisions and advising the institution regarding relationships with any entity involved in any aspect of student financial aid.

• Refrain from soliciting or accepting anything other than nominal value from any entity (other than an institution of higher education or a government entity such as the US Department of Education) involved in the making, holding, consolidating, or processing of any student loans, including anything of value (including reimbursement of expenses) for serving on an advisory body or as part of a training activity of or sponsored by any such entity.

• Refrain from recommending options of lenders for private loans.

F. CREDIT BALANCES

A credit balance occurs anytime the institution receives payments in excess of institutional charges. Credit balances are disbursed to students within 14 days of being created. All cash disbursements to students are in the following order: 1) Direct loan, 2) PLUS loan, 3) Federal Pell grant, and 4) state grant funds. Credit balances are returned to the lender, as applicable, if the student withdraws from the institution.

G. FEDERAL FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS

Students are required to meet minimum academic standards, (as defined in the Progression/Promotion Policy) in order to retain eligibility for federal financial aid, which includes grants and loans. At the end of each term, the Financial Aid Officer will all students’ academic records to ensure that the following minimum standards are met; required by federal regulation:

• Students must earn 2/3 of all credit(s) attempted. “Earned credits” is defined as nursing and college courses completed with a grade of “A” thru “C” (4.0-2.0), and clinical grades of “P”. “Earned credits” does not include grades of : “F”, “W”, or “I”. Students may only receive credit for a course once per academic year.

• Students must earn a minimum cumulative Q.P.A. of 2.0 at the end of each academic year (July 1 – June 30).

Students who do not meet these minimum academic standards will be placed on financial aid probationary status. Students can receive financial aid while on probationary status, but must achieve the minimum grade standards prior to completion of the next term. If a student on financial aid probation does not meet the minimum academic standards at the end of the following term, the student will be placed on financial aid suspension. Students CANNOT receive any federal aid (including grants, loans or institution funding) while on suspension. Financial aid suspension can only be removed after a student
has met the minimum grading standards, as listed above, for the credits attempted. This will require a student to enroll for courses at his/her own cost, if such student remains in good academic standing otherwise.

H. FINANCIAL AID VERIFICATION POLICY AND PROCEDURES

This Financial Aid Verification Policy describes OVH School of Nursing’s method of informing students of verification selection, specific items to be verified, and communication of changes to students Free Application for Federal Student Aid (FAFSA).

Verification is the process of checking the accuracy of submitted information supplied by the financial aid applicants on the FAFSA. The verification requirements delineated in this policy statement apply to all applicants for Federal student aid under the following programs:

- Federal Pell Grant Program
- Federal William D. Ford Direct Loan Program

For verification purposes, OVH School of Nursing defines a financial aid applicant as an enrolled student who is eligible to receive a Federal financial aid award. Aid will not be disbursed from any of the aforementioned Federal programs, the PA State Grant, or any institutional awards until the verification process has been completed.

**Verification Selection**

OVH School of Nursing’s policy is to verify all applicants selected for verification by the Central Processing System (CPS). OVH School of Nursing also reserves the right to select additional applications for verification.

**Notification of Selection**

The Federal Student Aid Report (SAR) will indicate whether or not the file has been selected for verification. The SAR is typically accessed via a link sent by the Department of Education after filing the FAFSA. If the file is selected for verification, there will be an asterisk (*) next to the Expected Family Contribution (EFC) figure on the SAR.

An email notification from the Financial Aid Office will be sent alerting the student of selection and detailing the additional documentation required to submit before financial aid awards are considered official and ready for disbursement. This statement will be sent when the Financial Aid Office sends notification of the award package.

**Verification Documentation**

OVH School of Nursing encourages all eligible FAFSA filers to use the IRS Data Retrieval Tool to import financial information from the IRS into the FAFSA to ensure accuracy and reduce documents that must be submitted to satisfy verification selection.
Dependent students selected for verification must submit a Federal Dependent Verification Worksheet signed by the student and a parent. Parent and student tax return transcripts must be obtained from www.irs.gov for selected students who do not use the IRS Data Retrieval Tool.

Independent students selected for verification must submit a Federal Independent Verification Worksheet signed by the student and his/her spouse (when applicable). Students and spouse (when applicable) tax return transcripts must be obtained from www.irs.gov for selected students who do not use the IRS Data Retrieval Tool. Individuals reporting income, but not required to file a Federal tax return must submit copies of all Federal W-2’s received the previous tax year.

Verification Submission Deadlines

OVH School of Nursing strongly recommends all verification documents be submitted to the Financial Aid Office within two (2) weeks of the notification of selection. No Federal, State, and institutional aid will be disbursed until all required verification submissions are received by the Financial Aid Office.

Applicant Correction & Notification Procedures

The Financial Aid Office will electronically submit to the Central Processor corrections to the FAFSA data resulting from verification. The Central Processor will then send an SAR Information Acknowledgment to the applicant as notification of these corrections. Applicants will also be notified of award changes resulting from verification by the receipt of an updated award notification from the Financial Aid Office.

Overpayments, Fraud and Abuse

The Financial Aid Office will report to the Office of Inspector General all instances of suspected fraud where a financial aid applicant, employee or other individual has misreported information and/or altered documentation for the purpose of increasing aid eligibility or fraudulently obtaining Federal aid funds.

Professional Judgment

The Financial Aid Office will make exceptions to the above guidelines for unusual/extenuating circumstances of the student and/or parent. For more information on Professional judgment visit the financial aid office.
Professional judgment cannot be used to waive general student eligibility requirements to circumvent the intent of the law or regulations.

I. INSTITUTIONAL CHARGES

Complete information regarding tuition and fee charges can be found in the school catalog handouts.

A student is expected to meet all financial obligations to the School of Nursing as scheduled; failure to do so could result in program interruption. A student having difficulty meeting his/her financial responsibilities should contact the Financial Aid Office immediately to discuss the problem and explore possible solutions. It is the School of Nursing’s right to refuse admittance to class and withhold academic transcripts and/or diplomas if all financial obligations are not met. In order to graduate, students are expected to meet all financial obligations to the school.

J. RECORDKEEPING AND DISCLOSURE

The School of Nursing will disclose information from a student’s education records only with the written consent of the student or as provided by FERPA those to be disclosed without consent when the disclosure is:

- To school officials who have a legitimate educational interest in the records.
  A school official is:
  - A person employed by the college in an administrative, supervisory, academic or support position
  - Affiliate college personnel
  - A person assigned, employed by or under the SON/college to perform a specific task, such as an attorney or auditor
  - A person employed by public safety
  - A student serving on an official committee, such as grievance, or who is assisting another school official in performing his or her task (i.e. volunteer)

  A school official has a legitimate educational interest if the official is:
  - Performing a task that is specified in his or her position description or contract agreement
  - Performing a task related to a student’s education
  - Performing a task related to the discipline of a student
  - Providing a service or benefit relating to the student or student’s family, (i.e. financial aid or other student service related assistance)
  - Maintaining the safety and security of the campus

- Although a person may be designated a “School Official,” he or she does not have inherent rights to any and all education record information. The school official must demonstrate to the custodian a legitimate educational interest and such a determination must be made on a case-by-case basis.
- To school officials of another school, upon request by that school, in which a student seeks or intends to enroll.
• To certain officials of the U.S. Department of Education, the Comptroller General, and to state and local educational authorities, in connection with audit or evaluation of certain state- or federally-supported education programs.
• In connection with a student’s request for or receipt of financial aid to determine the eligibility, amount, or conditions of the financial aid, or to enforce the terms and conditions of the aid.
• To state and local officials or authorities if specifically required by a state law that was adopted before November 19, 1974.
• To accrediting organizations to carry out their functions.
• To parents of an eligible student who is claimed as a dependent for income tax purposes.
• To comply with judicial order or a lawfully-issued subpoena.
• To appropriate parties in a health or safety emergency.
• The results of any disciplinary proceeding conducted by the college against an alleged perpetrator of a crime of violence to the alleged victim of that crime.

Authorization of release forms required to release education records are available in the School of Nursing main office.

Questions pertaining to the procedures and their implementations should be directed to the Director, School of Nursing.

K. REFUND POLICY

Students may withdraw from the nursing program at any time. Students may owe the school a balance after all refunds are made. Students must make arrangements with the Financial Aid Advisor to ensure that all financial obligations are met.

Tuition Refund

The percentage of tuition refunded will be calculated in accordance with the applicable refund schedules outlined below. The federal pro rata policy is only applicable to students enrolled for the first time at the School of Nursing and only during the first term. All other refunds are calculated in accordance with the federal refund policy.

</table>

The student will receive a full refund of tuition charged for a term in which he or she never attends.

All fees are nonrefundable.

Tuition refunds are calculated using the student’s last day of attendance. The school will make refunds within 30 days of the student’s official withdrawal date or in the case of unofficial withdrawal, the date the school determines the student is no longer enrolled. The date of determination for unofficial withdrawal is no more than 15 calendar days after the student’s last date of attendance. Sample refund calculations are available in the Financial Aid Office.

Refunds are made in the following order: 1) Unsubsidized Federal Direct Stafford Loans; 2) Subsidized Federal Direct Stafford Loans; 3) Federal PLUS loans; 4) Federal Pell Grant, 5) State grant programs (PHEAA, OIG); Institutional aid; 7) outside agency aid, and 8) student.

A student or parent who believes an exception to the published refund policy is warranted should submit a written appeal with documentation of any mitigating or unusual circumstances. The written appeal must be submitted within 45 calendar days of the last date of attendance. The appeal should be directed to the Financial Aid Officer at the School of Nursing.

Repayment Policy

A student who receives a cash refund from grant aid will have a repayment calculation performed upon complete withdrawal from the program. This calculation is used to determine if any of the aid paid to the student for indirect expenses must be repaid to the financial aid programs.
All non-institutional living expenses are prorated based on the number of weeks the student completes each term. A partial week is treated as equivalent to a full week. For students who begin attendance in the term, 100% of the books and supplies allowance is considered expended.

Repayments are made in the following order: 1) Federal Pell Grant, 2) State Grant, and 3) Institutional Grant.

L. REPEAT OF COURSES

A student can be paid financial aid for repeat course work as long as he or she is otherwise meeting satisfactory academic progress standards.

M. RETURN OF TITLE IV FUNDS

TO ALL STUDENTS AND PARENTS: If you give the School of Nursing written authorization to 1) credit loan funds to your account by means of Electronic Funds Transfer (EFT), 2) use Title IV federal student aid funds to pay for charges other than tuition and fees, such as books and supplies, and/or 3) hold any financial aid funds in excess of the current charges on account to be applied to subsequent charges, that authorization will be valid for the entire period of enrollment. Authorization can be canceled or modified at any time. The School of Nursing retains any interest earned on funds held in the account. Call the Financial Aid Office if you have any questions.
XI. Forms
