

Heritage Valley, Encompass Health Bring Inpatient Rehab to Heritage Valley Kennedy

Heritage Valley Health System and Encompass Health Rehabilitation Hospital of Sewickley are pleased to announce the renovation and re-opening of a 12-bed inpatient rehabilitation unit located on the fifth floor of Heritage Valley Kennedy hospital.

Officially named the Encompass Health Rehabilitation Hospital of Sewickley at Heritage Valley Kennedy, the unit will function as a satellite expansion unit of the main facility located in Sewickley. The location will provide rehabilitation care for patients recovering from strokes and other neurological disorders, brain injuries, hip fractures, and complex orthopedic conditions.

Patients of the unit benefit from exceptional care that is standard to both organizations. Those receiving care will experience a minimum of three hours per day of therapy for five days each week from a multidisciplinary therapy team, 24-hour nursing care, access to advanced technologies, and frequent visits by an attending physician during their stay.

To learn more about Encompass Health Rehabilitation Hospital of Sewickley at Heritage Valley Kennedy, please call 412.749.2396.

Primary Stroke Centers Awarded Joint Commission Reaccreditation

We are pleased to report that Reaccreditation of the Stroke Centers at Heritage Valley Beaver and Heritage Valley Sewickley has been awarded by the Joint Commission. Successful surveys were recently held, and there were no quality of care issues found in our patient processes. This certification identifies Heritage Valley's programs as being able to provide prompt evaluation and treatment to any stroke patient who arrives at Heritage Valley Beaver or Heritage Valley Sewickley.

A key aspect of the Heritage Valley Stroke Response Teams is the "telestroke" system that Heritage Valley has developed with Pittsburgh hospitals. Heritage Valley Beaver physicians are connected by video to neurologists at UPMC facilities, and Heritage Valley Sewickley physicians are connected to neurologists at Allegheny General Hospital.

Talking with CEO Norm Mity

What a difference 24 months make! The Covid-19 pandemic brought, and continues to bring, numerous changes to our lives. Through the dedication and commitment of many – frontline healthcare staff, essential workers, volunteers and countless others – we have emerged with a keen awareness of how important it is to remain healthy.

A significant component of getting back to normal and remaining healthy is scheduling appointments with your primary care physician and specialists, having your annual lab work done, and scheduling procedures that you may have been putting off. Heritage Valley wants to make all of this as easy as possible for you. Along with checking our website, you can download the HVHS app for your iPhone or Android smart phone by going to the Apple App Store or Google Play Store. In addition to a complete listing of Heritage Valley physicians and services, you will find your Health Link and My Care Link on this app. A key feature is the "Activity" button, which shows you in "real time" how many patients are currently receiving services at our Outpatient Diagnostic Facilities, ConvenientCare locations and Emergency Departments. You can also schedule Covid-19 tests and receive your results through "My Care Link."

I am proud of the high-quality care that Heritage Valley provides to all of our communities. I am also pleased to announce that we have administered over 106,000 vaccines since January 2021, and we continue to provide vaccines and boosters.

Please join us as we strive to get "back to normal." We are appreciative that you entrust us with your healthcare needs and remain with Heritage Valley, Uniquely Connected. For Life.

Norman F. Mity
President & CEO, Heritage Valley Health System

Heritage Valley's Commitment to Behavioral Health Care

Heritage Valley Health System has a history of providing behavioral health care for the patients in the communities it serves. The Health System provides comprehensive behavioral health care services in both inpatient and outpatient settings.

Most recently, Heritage Valley established a new, state-of-the-art Adult Behavioral Health Care Unit at Heritage Valley Kennedy hospital. The new 24-bed unit complements a similar, well-established inpatient Adult Behavioral Health Care unit located at Heritage Valley Beaver. Both inpatient care units focus on the treatment and care of individuals, ages 18 and older, with behavioral health disorders including, but not limited to, major depression, bipolar disorder, schizophrenia, and other psychotic disorders and co-occurring diseases.

Additionally, on the Heritage Valley Kennedy campus, a separate Geriatric Behavioral Health Unit provides short-term inpatient services for those over the age of 55 who have mental health needs. Many of these patients also have concurrent medical conditions. The unit is one of the few Geropsychiatric facilities in Western Pennsylvania. Behavioral health staff collaborate with Heritage Valley Kennedy's medical staff to ensure that medical and psychiatric needs are addressed simultaneously.

Beyond the inpatient care at Heritage Valley Kennedy and Heritage Valley Beaver hospitals, Heritage Valley has a long-standing partnership with Staunton Clinic to provide outpatient behavioral health care services. The outpatient department at Staunton Clinic offers a full range of diagnostic and treatment services across the lifespan.

Support Heritage Valley

Something that has not changed during the pandemic is the generosity of our community, and for that we are extremely appreciative. Heritage Valley has always relied on multiple sources of revenue, including charitable donations, and we ask that you please consider making a donation to the Heritage Valley Health System Foundation. A donation of any amount would be greatly appreciated. For your convenience, you may make your gift online by clicking on the Foundation tab at heritagevalley.org. By making a gift, you support our mission: *"To improve the health and well-being of all people in the communities we serve."*

Heritage Valley Health System Welcomes New Physicians

Heritage Valley Health System is pleased to announce the addition of 10 physicians who bring additional expertise in a variety of specialties. To learn more about these physicians and others on staff at Heritage Valley Health System hospitals, please visit heritagevalley.org/doctors or call 1.844.769.DOCS (3627).

Stay Connected to Us!

There is so much that iHVHS/aHVHS can do for you! Once you download the HVHS app from the Apple App Store or Google Play Store, you will be able to:

- See a complete listing of all Heritage Valley physicians.
- Click on "Activity" to see real-time patient activity at Heritage Valley's Emergency Departments, ConvenientCare locations and outpatient diagnostic facilities. By viewing how busy each location is, you can head to the facility with the fewest patients.
- Create a "Health Link" account, which will enable you to securely view your health information online, view lab results, radiology reports and read summaries from physician office and ConvenientCare visits; view discharge summaries from hospital admissions and more.
- See a complete listing of all Heritage Valley Services.
- Create a "My Care Link." Here you will be able to **self-schedule a Covid-19 test and create a SMART® Health Card**, if you received your vaccines and booster through Heritage Valley.
- Store your Heritage Valley Care Card, which will enable you to register quickly at our kiosks.

If you need assistance, please contact us at iHVHS@hvhs.org.

Heritage Valley Tops 106,000 Vaccines!

Just like in football, the best defense is a good offense! We continue to strongly encourage everyone to get vaccinated against Covid-19, including boosters, especially in light of the more contagious Omicron variant. To date, Heritage Valley Health System has administered over 106,000 vaccines! In early 2021, we created an innovative online registration system that allowed people to sign up for vaccine appointments at our mass vaccination clinics held at the Community College of Beaver County's (CCBC) Dome and our Robinson location adjacent to Staples. Within the first week, over 31,000 people had registered!

It was very gratifying to hear how appreciative people were to receive their vaccines. We heard many comments about people being able to visit and hug family members again, especially grandchildren and great-grandchildren, and to be able to safely travel. The predominant theme, however, was the sense of relief that patients felt in receiving their vaccines and boosters.

"I am extremely proud of Heritage Valley's ability to be flexible in the administration of the vaccines to our community," says Norm Mitry, President & CEO of Heritage Valley Health System. "When the opportunity to vaccinate our community arose, the Board of Directors, Medical Staff and employees rallied and enabled us to adhere to the Heritage Valley Mission to improve the health and well-being of all individuals in the communities that we serve. It was truly a team effort."

We want to thank the countless number of volunteers who assisted us with our community vaccination clinics. In addition, we sincerely appreciate the Beaver County Commissioners and the Community College of Beaver County working with us and allowing us to use the CCBC Dome. This is what community is all about!

Please visit heritagevalley.org for more information regarding vaccines and boosters or to register online. You may also call 724-770-7555 for an appointment for an initial or booster vaccine. Let's go on the offensive against Covid-19! Widespread vaccination is critical to help stop the pandemic and return "back to normal."
